VICTORIA COLLEGE

In Affiliation with the University of British Columbia

THE PURPOSE of Victoria College is to give students of Victoria City, adjacent municipalities, and Vancouver Island generally, an opportunity of receiving instruction in the first two years in the Arts and Science course (including Commerce) and in the first two years of Home Economics as prescribed by the University of British Columbia. Students attend classes on the same curriculum as obtains at the parent University; they are submitted to the same tests and examinations, and may proceed directly to their next year in the University of British Columbia, or in any other University which accepts the certificates of the University of British Columbia.

In 1894, by Act of the Provincial Legislature, High Schools of the Province were permitted to affiliate with recognized Canadian Universities.

Victoria High School, in 1902, became affiliated with McGill University in order to provide First Year work in Arts, and that part of the institution offering classes beyond Junior Matriculation became Victoria College. In 1907 the College undertook the work of the Second Year in Arts.

In 1906 the Provincial Legislature passed an Act incorporating the Royal Institution for the Advancement of Learning of British Columbia. This institution, in the same year, established at Vancouver the McGill University College of British Columbia. In the following year Victoria College became a part of McGill University College.

In 1908 an Act was passed establishing and incorporating the University of British Columbia, and in 1915, upon the opening of the University of British Columbia, Victoria College, as part of McGill University College, ceased to exist.

In 1920 Victoria College was re-established, with its present affiliation with the University of British Columbia.

The College building is situated at the corner of Lansdowne and Richmond Roads, on the Mount Tolmie bus route, and commands the most beautiful views of the City of Victoria, of Juan de Fuca Strait, and of the Olympic Mountains in the State of Washington.

VICTORIA COLLEGE COUNCIL

(a) Ex-Officio:

Norman A. M. MacKenzie, C.M.G., M.M. and
Bar, K.C., B.A., LL.B., LL.M., LL.D., D.C.L.,
F.R.S.C., President, University of British Co-
lumbia.

J. F. K. English, M.A., B.Paed., Senior Inspec-
tor of Schools, Greater Victoria District.

John M. Ewing, B.A., D.Paed., Principal.

(b) Appointed by Board of Governors:

Daniel Buchanan, M.A., Ph.D., LL.D., F.R.S.C.,
Dean of the Faculty of Arts and Science.

J. B. Clearihue, M.C., K.C., M.A., B.C.L.
(Chairman).

(c) Appointed by Minister of Education:

J. G. Ruttan, M.A., B.C.L. (Vice-Chairman).

(d) Appointed by Greater Victoria Board of School Trustees:

A. Edmonds.

Mrs. H. A. Beckwith

R. H. Green, B.A.

OFFICERS AND STAFF

John M. Ewing, B.A. (Queen's), D.Paed. (Toronto),
Principal.

Jeffrey A. Cunningham, B.A. (Queen's), Vice-Prin-
cipal.

Miss Dorothy M. Cruickshank, B.A. (Brit. Col.),
Registrar.

Miss Marjorie Griffin, B.A. (Brit. Col.), Librarian.
(On leave of absence.)

Miss Edith Stewart, B.A. (Man.), B.A. in L.S.
(Washington), Librarian for Session 1947-48.

Mrs. E. Joyce McKay, B.A. (Man.), Book Store
Manager and Assistant Registrar.

Miss Patricia Sullivan, B.A. (Sask.), Secretary.

Department of Biology, Botany and Zoology

Jeffrey A. Cunningham, B.A. (Queen's), Associate Professor of Biology, Botany and Zoology.

W. Gordon Fields, B.A. (Brit. Col.), Assistant Professor of Biology.

Department of Chemistry

Edward J. Savannah, A.B., S.B. (Calif.), Assistant Professor.

Lewis J. Clark, B.A. (Brit. Col.), M.Sc. (Washington), Assistant Professor.

Department of Classics

George P. Black, M.A. (Man.), Associate Professor.

Department of Commerce and Economics

James H. Aitchison, B.A., B.Ed. (Sask.), B.Sc. (London), Associate Professor.

Department of English

Roger J. Bishop, B.A. (Brit. Col.), M.A. (Toronto), Assistant Professor. (On leave of absence.)

Rodney P. D. Poisson, M.A. (Brit. Col.), Assistant Professor.

G. Grant McOrmond, M.A. (Sask.), Instructor.

Austin L. Wells, B.A. (Man.), Licenciado (Madrid), Docteur de l'Université (Paris), Special Lecturer for Session 1947-48.

Department of Geography

Donald W. Kirk, M.A. (Toronto), Instructor.

Department of History and Sociology

Sydney G. Pettit, M.A. (Brit. Col.), Assistant Professor. (On leave of absence.)

John H. Syrett, B.A. (Brit. Col.), Special Lecturer for Session 1947-48.

Department of Home Economics

Miss Nellie Salamandick, B.A. (Alberta), Instructor.

Department of Mathematics

Robert T. D. Wallace, M.A. (Brit. Col.), Associate Professor.

Mrs. O. Phoebe Noble, B.A. (Brit. Col.), Instructor.

Department of Modern Languages

W. Harry Hickman, M.A. (Brit. Col.), Associate Professor of French. (On leave of absence.)

Miss Phyllis Baxendale, B.A. (Brit. Col.), Assistant Professor of German. (On leave of absence.)

Mrs. Grace M. Hickman, B.A. (Brit. Col.), Special Lecturer in French for Session 1947-48.

Miss Muriel E. Graham, B.A. (Man.), Special Lecturer in German for Session 1947-48.

Department of Philosophy and Psychology

John M. Ewing, B.A. (Queen's), D.Paed. (Toronto), Professor of Philosophy and Psychology.

William H. Gaddes, M.A. (Brit. Col.), Instructor in Psychology.

Department of Physics

William H. Hughes, B.A. (Queen's), B.Sc. (Sask.), Associate Professor.

Miss Cecily Girvan, B.Sc. (Mt. Allison), Instructor.

ACADEMIC YEAR 1947-48

1947

Monday, August 11th—Registration begins.

Tuesday, September 2nd—Supplemental Examinations begin.

Monday, September 15th—Last day for registration.

Monday, September 15th—Last day for payment of first instalment of fees.

Thursday, September 18th—Session begins (organization).

Monday, September 22nd—Lectures begin.

Monday, October 6th—Last day for change in students' courses

Saturday, December 20th—End of First Term.

1948

Monday, January 5th—Second Term begins.

Thursday, April 15th—Last day of lectures.

Saturday, April 17th—Sessional Examinations begin.

Friday, April 30th—End of Second Term.

IMPORTANT NOTICES

No student will be admitted to the College who has more than three units of failure outstanding either from Senior Matriculation or from a previous year in the College.

As the College Session is short, the student must be prepared to do intensive work from the first day of the Session to the last. Unless the student adapts himself to these conditions, his chances of success are slight.

The Principal and Staff are most willing at all times to give direction or advice, but the ultimate responsibility in the selection of courses rests with the student.

Regulation of Victoria College Council forbidding Hazing and other Unauthorized Activities

The following are prohibited:

1. Hazing.
2. Any act by any student attending the College or by any one at all causing injury or likely to cause injury to any person or damage to College property.

Any student violating the above regulation will be liable to immediate expulsion.

Victoria College is governed by the regulations of the University of British Columbia, of which the official statement is the University Calendar; this Calendar is a digest of such regulations.

Students are warned not to assume that regulations remain unchanged from year to year. They should note regulations and outlines of courses as they appear in this Calendar.

Application for admission should be made as early as possible after August 11th, 1947, at the office of the Registrar, Victoria College. Out-of-town students may register by mail. Students registering for the first time must present their University Entrance (Junior Matriculation) Certificates.

College Book Store

All text-books and student supplies can be purchased at the College Book Store which is within the College building.

GENERAL INFORMATION

The Session

The College Year or Session is divided into two terms. The first begins on Thursday, September 18th, 1947, and the second on Monday, January 5th, 1948.

Courses of Study

For the Session 1947-48 the College offers instruction in the first two years of the Faculty of Arts and Science (including Commerce), leading to the degrees of Bachelor of Arts and Bachelor of Commerce, and in the first two years of Home Economics leading to the degree of Bachelor of Home Economics.

By a proper selection of First Year courses in Arts and Science, students may equip themselves to enter, at the University, the first year of Applied Science, the second year of Pharmacy, and the first year of the Combined Course in Nursing and Health and of the Double Course in Arts and Science and Nursing and Health. A suitable selection of courses in the first two years of Arts and Science will enable students to continue, without loss of time, the work in Agriculture at the University.

Courses preparatory to Medicine, Dentistry, Law, etc., are given in so far as the curriculum applies.

Board and Residence

A list of approved boarding-houses which receive men or women students, but not both, may be obtained from the Registrar. Men and women students are not permitted to lodge in the same house, unless they are members of the same family, or receive special permission from the Faculty.

ADMISSION TO THE COLLEGE

All inquiries relating to admission to the College should be addressed to the Registrar.

Except under special circumstances, no student under the age of sixteen is admitted to the College.

Candidates for admission to the courses in the First Year are required to pass the University Entrance (Junior Matriculation) Examination of the Province of British Columbia, or to submit certificates showing that they have passed an equivalent examination elsewhere.

Students who have passed the Senior Matriculation Examination are admitted to the work of the Second Year in the Faculty of Arts and Science.

Students who have partial Senior Matriculation standing will be granted credit in the First Year in each subject in which they have made 50 per cent. or over.

REGISTRATION

Those who intend to register as students of Victoria College for the Session 1947-48 are required to make application to the Registrar before Monday, September 15th, on forms to be obtained at the Registrar's office.

There are three classes of students.

(a) Full Undergraduates—Students proceeding to a degree who have passed all the examinations precedent to the year in which they are registered.

(b) Conditioned Undergraduates — Students proceeding to a degree with defects in their standing which do not prevent their entering a higher year under the regulations governing "Examinations and Advancement."

(c) Partial Students—Students not belonging to one of the two preceding classes.

Partial students are not normally required to pass an examination for admission, but, before registering, must produce a certificate showing that they have satisfied the Principal and the Heads of the Departments concerned that they are qualified to pursue with advantage the course of study which they propose to undertake.

Students living out of town may register temporarily by mail on forms obtainable at the College, provided they complete their registration by the opening day. All other students are required to attend in person at the office of the Registrar between Monday, August 11th, and Monday, September 15th, to furnish the information necessary for the College records, to register for the particular classes which they wish to attend, and to sign the following declaration:

"I hereby accept and submit myself to the statutes, rules, regulations and ordinances of Victoria College and of the Faculty in which I am registered, and to any amendments thereto which may be made while I am a student of the College, and I promise to observe the same."

In the information furnished for the College records, students are requested to state what church they propose to make their place of worship. This information is available for any of the city churches desiring it.

Students registering for the first time must present the certificates which constitute their qualifications for admission to the course of study for which they wish to register.

A student desiring to make a change in the course for which he has registered must apply to the Registrar for a "change of course." Except in special circumstances, no change will be allowed after October 6th. If the application is approved by the Departments concerned, the Registrar will give the necessary notification.

A student who at any time wishes to discontinue a subject must give notice of his intention at the Registrar's office.

ATTENDANCE

Students are required to attend at least seven-eighths of the lectures in each course that they take. Admission to a lecture or laboratory and credit for attendance may be refused by the Instructor for lateness, misconduct, inattention or neglect of study. Absence consequent on illness or domestic affliction may be excused only by the Principal, and medical certificates or other evidence must be presented immediately to the Registrar on return to College work. In cases of deficient attendance students may (with the sanction of the Principal and Head of the Department concerned) be excluded from the Christmas or the final examinations in a course; but, in the case of a final examination, unless the unexcused absences exceed one-fourth of the total number of lectures in a course, such student may be permitted to sit for supplemental examination.

The College week is from Monday to Saturday inclusive, and lectures and laboratories may extend from 8 a.m. to 6 p.m.

FEES

All fees are payable at the office of the Registrar, Victoria College. Cheques should be made to the order of the Registrar, Victoria College. Arrangements for paying fees in instalments are described in the next section. The fees quoted below do not include cost of text-books, personal expenses, etc.

For students doing 15 units (complete course) or more during the session:

Tuition Fees	\$120.00
Alma Mater and Incidental Fees	8.00
Caution Money (to cover library fines).....	2.00
<hr/>	
Total	\$130.00

For students doing less than 15 units during the session (partial students):

Fee for each 3-unit course	\$30.00
Alma Mater and Incidental Fees	8.00
Caution Money (to cover library fines).....	2.00

Special and Night Class Students:

The same as for partial students, except that the Alma Mater and Incidental Fees are not collected.

The Alma Mater fee is turned over to the Students' Council for the support of student organizations, athletics, and social functions. The Incidental Fee covers damages to buildings and furniture, use of special materials in the laboratories, replacement of library books, etc. Should the sum collected be insufficient, a second amount may be collected from each student.

PAYMENT OF FEES

Fees may be paid by either of the plans described below. Parents or guardians of students are required to state at the time of registration which plan they propose to adopt. In the event of default of payment at any time under either plan, students will be

excluded from classes, and will not be re-admitted until all outstanding fees have been met.

First Plan: Fees payable in two instalments. The first, consisting of one-half the Tuition Fee plus Alma Mater and Incidental Fees and Caution Money, must be paid at time of registration. The second, consisting of the balance of the Tuition Fee, must be paid not later than January 15th, 1948. For students taking a full course (15 units) the payments under this plan are \$70.00 and \$60.00 respectively.

Second Plan: Fees payable in one cash payment and five monthly payments. The cash payment, consisting of one-sixth the Tuition Fee together with the Alma Mater and Incidental Fees and Caution Money, must be paid at time of registration. The balance of the Tuition Fee must be paid in instalments on the 15th day of October, November, January, February and March respectively. For students taking a full course (15 units) the first payment under this plan is \$30.00 and each of the following five payments is \$20.00.

SPECIAL FEES

Special Examination (per paper)	\$7.50
Regular Supplemental Examinations (per paper)	5.00
Re-reading of Examinations (per paper) ..	2.00

These fees must be paid in advance.

SCHOLARSHIPS AND PRIZES

First and Second Year Students in Arts and Science who are proceeding to a course of study in the University of British Columbia should note the page of the Calendar of that Institution concerning the Khaki University and Young Men's Christian Association Memorial Fund Bursaries.

THE DOMINION-PROVINCIAL STUDENT
AND BURSARY FUND
AND PROVINCIAL LOAN FUND

Under the Dominion-Provincial Youth Training Programme a sum of money has been set aside to aid University students who can offer proof of scholastic ability and financial need.

Application forms may be secured from the Department of Education, Technical Education Branch, Victoria, B.C., and must be returned not later than August 1st.

PERCY H. ELLIOTT MEMORIAL SCHOLARSHIP—One hundred dollars (\$100.00) awarded to a student of outstanding merit and promise in one specific field of study, who has also a high general academic standing, and qualities of character indicating worthiness to hold the scholarship. The scholarship is awarded, upon the recommendation of a Staff Committee, to a student in the First or Second Year, and, unless service in the Armed Forces intervenes, proceeding immediately towards a University degree.

ROYAL INSTITUTION AND FRANK EATON MEMORIAL SCHOLARSHIP — Fifty dollars (\$50) awarded to the student taking the highest standing in the English of the second year.

ALLIANCE FRANCAISE PRIZE — Twenty-five dollars (\$25) awarded to the student in the second year who has made the most progress in French and who intends to continue university work in this subject.

DAVID SPENCER, LTD., SCHOLARSHIP—One hundred dollars (\$100) awarded to the first year student taking the highest standing in Mathematics and continuing the course in the second year at Victoria College.

KIWANIS SCHOLARSHIP—One hundred dollars (\$100) awarded to a man student completing the first year and entering the second year at Victoria College. Selection of the recipient to be made by the Kiwanis Club of Victoria in conference with the College Faculty.

QUITA NICHOL BURSARIES—Two hundred dollars (\$200) donated annually to Victoria College by Mrs. W. C. Nichol, to provide scholarships in first and second year French. Two prizes of \$100 and \$50 respectively will be awarded in the first year, and one prize of \$50 in the second year. These prizes are normally awarded on merit, but, if necessary, special circumstances may be taken into consideration. Students must continue at Victoria College for their second year or the University of British Columbia for their third year.

UNIVERSITY WOMEN'S CLUB SCHOLARSHIP—One hundred dollars (\$100) awarded to the woman student taking the highest standing in her first year and continuing her course in the second year at Victoria College or at any other university, provided the course desired is not available at Victoria College. When a student wishes to attend a university outside Canada, the reasons for such attendance should be submitted to the Executive of the University Women's Club for approval.

THE KATHLEEN AGNEW SCHOLARSHIP—One hundred dollars (\$100) donated for the purpose of stimulating the study of the History of Canada.

HUDSON'S BAY COMPANY SCHOLARSHIP—One hundred dollars (\$100) awarded to the student taking the highest standing in Economics 200, and continuing his university studies without interruption.

SIDNEY ROOFING AND PAPER COMPANY SCHOLARSHIP—One hundred dollars (\$100) awarded to the leading student of the second year, on condition that he continues his university studies without interruption in the third year.

*THE CANADIAN LEGION, B.E.S.L., (VICTORIA, B.C.) SIR PERCY LAKE MEMORIAL SCHOLARSHIP—One hundred and fifty dollars (\$150) to be awarded annually to a worthy student of Victoria College on the recommendation of the Faculty. To be eligible, a student must be a veteran of World War II, or a son or daughter of a veteran of World War II or World War I, or the wife or widow of a veteran of World War II and must continue his or her studies.

VICTORIA GYRO CLUB SCHOLARSHIP—One hundred dollars (\$100) awarded annually to a male student completing his first year at Victoria College. The recipient is to be selected annually by a committee of the Gyro Club, upon the recommendation of the Principal of Victoria College, on the basis of qualities of leadership, distinction of mind and merit in games.

*VICTORIA MUNICIPAL CHAPTER IMPERIAL ORDER OF THE DAUGHTERS OF THE EMPIRE SCHOLARSHIP—Fifty dollars (\$50) awarded annually to a first year student who is the child of a veteran of World War I or World War II. The recipient of the Scholarship must be recommended for general proficiency and worth by the College Faculty, and must continue university work into the second year.

*UNITED SCOTTISH SOCIETIES SCHOLARSHIP—One hundred dollars (\$100) awarded annually to a student who is the son or daughter of a War Veteran, who is a member of one of the Scottish Societies. The candidate is to be selected by a Board of Trustees after consultation with the Principal of the College, and on the approval of the Associated Scottish Societies.

THE BRITISH COLUMBIA ELECTRIC RAILWAY COMPANY, LIMITED, SCHOLARSHIP—One hundred dollars (\$100) awarded to the student with the highest standing who is proceeding, without interruption, to the First Year of Applied Science.

KINSMEN CLUB OF VICTORIA SCHOLARSHIP—One hundred dollars (\$100) awarded annually to a student of Victoria College. The recipient is to be selected by a committee of the Kinsmen Club, on the basis of outstanding scholastic ability and promise, upon the recommendation of the College Faculty.

ESTHER PEARCE MEMORIAL PRIZE—Twenty-five dollars (\$25) awarded annually by Chapter N, P.E.O. Sisterhood, to a woman student in First Year for excellence in English.

JOHN WESLEY CHURCH MEMORIAL SCHOLARSHIP—One hundred dollars (\$100) awarded annually by Mrs. J. W. Church to the student winning highest standing in Latin (Latin 90 or Latin 101), or in Greek, or in Latin and Greek, in the first year, and continuing with the subject (or the subjects) in the second year at Victoria College.

***KER SCHOLARSHIP**—One hundred and twenty-five dollars (\$125) awarded to a student in the first year who is proceeding to the second year either at Victoria College or a Canadian University. The applicant must have been a Cadet (Sea, Army, or Air) for at least two years during his last three years of High School. Application, together with a certificate from the Cadet Unit concerned, must be made to the Registrar not later than April 30th. Selection of the winner is to be made by Faculty in consultation with the donor, Mr. R. H. B. Ker.

GRUEN GOLD WRIST WATCH—To be presented each year, by the Gruen Watch Company, through F. W. Francis, Ltd., to the student obtaining the highest average on the Sessional Examinations, with the provision that no student win it more than once.

*To be applied for on forms obtainable at Registrar's Office. Applications must be in the hands of the Registrar not later than the last day of the final examinations.

The following scholarships are open to students who have completed University Entrance and are proceeding to Victoria College:

CECILIA GREEN MEMORIAL SCHOLARSHIP — One hundred dollars (\$100) awarded to the first ranking student from Victoria High School in the University Entrance Examinations who has not already merited another award. The recipient must attend Victoria College or the University of British Columbia.

VICTORIA WOMEN'S CANADIAN CLUB SCHOLARSHIPS — (1) One hundred dollars (\$100) awarded to the female student resident in Victoria District (Vancouver Island south of the Malahat) and attending a Public High School who makes the highest standing in the University Entrance Examination, held in June, and registering for a full first year course in Victoria College, or the University of British Columbia, the following September. (2) One hundred dollars (\$100) awarded to the male student resident in Victoria District making the highest standing in the same examination and under the same conditions. Should the student, in either case, be awarded a scholarship from any other source, the Club Scholarship shall then revert to the student having the next highest standing.

UNIVERSITY SCHOLARSHIPS FOR UNIVERSITY ENTRANCE, School District No. 61, and School Districts Nos. 62-74—Two scholarships of one hundred and seventy-five dollars (\$175) awarded for general proficiency in the University Entrance Examinations. The winners must attend either the University of British Columbia or Victoria College (Districts 61-66 only.).

I.

COURSES LEADING TO DEGREE
OF B.A.

(Four-year course, two years of which may be taken at
Victoria College)

First and Second Years

1. The requirements of the First Year consist of 15 units. In the Second Year, students proceeding to a B.A. degree in the General course must take 15 units; those proceeding to a B.A. degree in an Honours course must take 15 or 18 units, according to the requirements of individual departments (see pages 22-26. Courses in the first two years must also be chosen in conformity with the requirements that follow.

Each student must take:

	Units
(a) English 100 and 101 in the First Year and English 200 in the Second Year	6
* (b) The first two courses in a language offered for University Entrance, one course in each year	6
(c) Mathematics 100, in the First Year	3
(d) Economics 100 or 200, or Geography 102, or History 101, 202, 203 or 304, or Psychology 100, or Philosophy 100, or Sociology 200	3
(e) Biology 100, or Chemistry 90, or Chemistry 100, or Geography 101, or Physics 100 or Physics 120	3
(f) At least three courses, not already chosen, selected from the following: Biology 100, Botany 200, Chemistry 90, Chemistry 100, Chemistry 200, Economics 100, Economics 200, French 101, French 202,	

*See regulations 2, 7 and 8.

Geography 101, Geography 102, Geography 202, German 90, German 100 or 101, Greek A, Greek 101, Greek 202, History 101, History 202, History 203, History 304, Latin 90, Latin 101, Latin 202, Mathematics 200, Mathematics 201, Mathematics 202, Philosophy 100, Philosophy 205, Physics 100, Physics 120, Physics 200, Psychology 100, Psychology 200, Sociology 200, Zoology 2009 or 12

Note: History 202 is open to First Year students only if they are preparing for entrance to Normal School. Botany 200, Economics 200, Geography 202, History 304, Sociology 200 and Zoology 200 are not open to First Year students.

2. Students who have not presented German or Latin for University Entrance may fulfil the language requirements for the degree by taking Beginners' German or Beginners' Latin (courses numbered 90), to be followed by German 100 or 101, and German 200, or by Latin 101 and Latin 202 to complete 63 units in the General course or 69 units in the Honours courses. The extra three units may be taken in any year.

3. Greek A (which may be taken by students having no previous knowledge of Greek), followed by Greek 202, will be accepted as satisfying the Language requirements in the case of students who have presented Latin for University Entrance.

4. No student in his first year may elect more than one beginners' course in a language, and, except as provided in Section 7, no beginners' course in a language will count towards a degree unless followed by a second year's work in that language.

5. Except in the case of beginners' courses, no course in a language may be taken by a student who has not offered that language for University Entrance. A beginners' course in a language may not be taken for credit by a student who has obtained credit for that language at entrance.

6. A student taking three languages in the first two years (18 units) may defer the course selected under (e) above until the Third or Fourth Year. A student taking four science courses (12 units) may defer the course selected under (d) to the Third or Fourth Year.

7. Students offering four science courses (12 units) or three science courses (9 units) and two courses in Mathematics (6 units) in the First and Second Years may fulfil the language requirement indicated above in section 1 (b) by taking any two of the following: French 101, French 202, Latin 90, Latin 101, Latin 202, German 90, German 100 or 101, Greek A, Greek 101, Greek 202. Only one course numbered 90 may be selected.

8. Students offering six science courses (18 units) in the First and Second Years may postpone the second course in a language under section 7 until the Third or Fourth Year.

The science courses in sections 6, 7 and 8 may be selected from the following: Biology, Botany, Chemistry, Geography, Physics, Zoology.

9. Students who intend to teach High School work, and consequently will be obliged to take the Teacher Training Course after graduating, are advised to take Psychology 100 in the First or Second Year. Psychology 100 must be taken as an undergraduate course by such students.

10. Only one course numbered 90 may be taken for credit toward the B.A. degree.

Honours Curriculum

Students whose proposed scheme of work for the Third and Fourth Years involves Honours courses must obtain the consent of the departments concerned and of the Dean before entering on these courses; and this consent will normally be granted only to those students who have a clear academic record at the end of their Second Year with at least Second Class standing in the subject or subjects of specialization, and who have chosen their courses and fulfilled the prerequisites outlined below.

SINGLE HONOURS COURSES

General Biology and Botany

Prerequisites: Biology 100 and Chemistry 100.

Course: In the Second Year, Botany 200, Physics 90 or 100 (if not already taken), and Zoology 200. Chemistry 200 for Pathology Option in place of Zoology 200.

Chemistry

Prerequisites: Chemistry 100 and Physics 100.

Course: In the Second Year, Chemistry 200, Mathematics 202, Physics 200, and nine additional units.

Classics

Prerequisites: Greek 101, Latin 101.

Course: In the Second Year, Greek 202 and Latin 202.

Economics

Prerequisites: For admission to the Third Year of the Honours Course, a reading knowledge of French or German.

Course: In the Second Year, Economics 100, if not already taken, and Economics 200.

English

Prerequisites: A reading knowledge of French or German.

First Year students who are entering the College in the autumn of 1947 and who are looking forward to Honours in English are advised to begin or continue study of a second foreign language, to be chosen from Latin, Greek, French, German.

In 1947-48, Second Year students who intend to enter the Honours course in English and who have not offered two languages (from Latin, Greek, French, German) in the First Year will be required to begin the study of a second language from that group or to continue it as from University Entrance.

All students entering the Honours course in English should have at least an elementary knowledge of Latin, such as can be gained from the University Entrance course or from Latin 90.

For non-linguistic electives in the First and Second Years, prospective Honours students are advised to select courses from History 101, Economics 100, Philosophy 100, Psychology 100, Sociology 200.

French

Prerequisite: French 101.

Course: In the Second Year, French 202 and French 203.

Geography

Course: In the First and Second Years, Geography 101, Geography 102 and Geography 202.

History

Prerequisites: (1) History 101. (2) A reading knowledge of French or German.

Course: Students entering Honours in the Second Year should pursue the following course: English 200, French 202 (or its equivalent); History 202; Geography 102; and one elective course, preferably History 304.

International Studies

Course: Second Year students who intend to proceed with the Honours course in International Studies should take the following subjects: English 200, French 202 or its equivalent, Economics 200, History 101 if not already taken, Geography 102; one elective if History 101 was taken in the First Year.

Latin

Prerequisite: Latin 101.

Course: Latin 202. Candidates are strongly advised to take Greek.

Mathematics

Prerequisites: Mathematics 100, Physics 100. It is suggested that German 90, if not offered for University Entrance, and Chemistry 100 be taken in the First Year.

Course: In the Second Year, Mathematics 200, 202, Physics 200, and nine additional units.

Physics

Prerequisites: Chemistry 100, Mathematics 100, Physics 100.

Course: In the Second Year, Mathematics 200, 202, Physics 200, and nine additional units chosen in conformity with calendar regulations.

Political Science

Prerequisite: A reading knowledge of French or German.

Course: In the Second Year, Economics 200.

Psychology

Prerequisites: Psychology 100; one of Biology 100, Chemistry 100, Physics 100.

Course: In the Second Year, Psychology 200; Philosophy 100 or 205; one not already taken of Biology 100, Chemistry 100, Physics 100, Mathematics 202, or a second course in the science taken in the First Year.

Sociology

Prerequisite: A reading knowledge of French or German.

Course: In the Second Year, Economics 200 and Sociology 200.

Zoology

Prerequisites: Biology 100, Chemistry 100, and if possible, Physics 100.

Course: In the Second Year, Botany 200, Chemistry 200, Zoology 200.

Note: Students who are planning to take a Combined Honours Course are advised to consult the University Calendar.

II.

COURSES LEADING TO THE DEGREE OF B.A.Sc. (APPLIED SCIENCE)

(Four-year course, for which the pre-requisite year
in Arts and Science may be taken at
Victoria College)

First Year

Students register in Arts and Science and take the following courses: English 100 and 101, Mathematics 100, Chemistry 100, Physics 100, French 101 or German 90 or Latin 101.

For admission to the First Year of Applied Science the passing grade is 60 per cent. in Mathematics, Chemistry and Physics, and 50 per cent. in other subjects.

No student with any supplemental outstanding will be admitted to the First Year of Applied Science.

III.

COURSES LEADING TO THE DEGREE OF B.Com. (COMMERCE)

(Five-year course, two years of which may be taken at
Victoria College)

First and Second Years

Students must take:

First Year—

A complete course in First Year Arts and Science or the equivalent.

Second Year—

- (a) English 200.
- (b) Mathematics 201, or an additional course in the language taken in the First Year.
- (c) Economics 200.
- (d) Geography 102.
- (e) Commerce 251.

A 60 per cent. standing in Economics 200 will be required of all students proceeding to their Third Year.

In view of the importance which rightly attaches to the capacity for adequate and clear expression in writing, regulation 12, on page 39 of the Calendar, will be rigidly enforced at the end of the Second Year, and reasonable legibility in handwriting will be insisted upon.

DOUBLE COURSE FOR THE DEGREES OF B.A. AND B.A.Sc.

(Six-year course, two years of which may be taken at
Victoria College)

The requirements for the first and second years are as set forth for the first and second years of Arts and Science except as follows:

1. Physics 100 and Chemistry 100 must be taken. The passing grade for each of these subjects and for Mathematics 100 is 60 per cent.

2. Chemistry 200 (except for Forestry), Mathematics 202 and Physics 200 may not be taken except as extra subjects. These subjects are covered later in Applied Science.

COURSES IN NURSING AND HEALTH

1. The Combined Undergraduate Course (University and Hospital) is a six-year course leading to the degree of B.A.Sc. (Nursing) and the Diploma in Nursing of an associated hospital.

2. The Double Course in Arts and Science and Nursing and Health is a seven-year course, leading to the Degrees of B.A. and B.A.Sc. (Nursing).

One year of either of the above courses may be taken in Arts and Science at Victoria College. The requirements for this year's work are as follows:

English 100 and 101.

French 101, or German 90, or Latin 101.

Mathematics 100.

Chemistry 100.

Biology 100.

Students in Nursing and Health are required to obtain a grade of 60 per cent. in either Biology or Chemistry, not both.

Upon the completion of the First Year in Arts and Science (Nursing Option) candidates should apply to the Registrar of the University, on or before August 15th, for admission to the Second Year in Nursing and Health.

Applications must be accompanied by a certificate showing that the applicant has satisfied the entrance requirements of an associated Hospital School of Nursing. Applicants must also, in the opinion of the Department of Nursing, be personally fitted for the profession: consequently, they should communicate with the Department of Nursing, University of British Columbia, with regard to their intention of entering the nursing course.

The Faculty reserves the right of selection and admission of students entering the Second Year of the Combined Course. Preference will be given to applicants with the highest academic standing.

Applicants who are accepted by the Department of Nursing will be notified, and must make application for registration at once or lose their priority of acceptance.

No student with defective standing will be admitted to the Second Year in Nursing.

Candidates who expect to complete the requisite entrance standing through University or Senior Matriculation supplemental examinations must apply for admission as specified, and their admission will be considered subject to the results of these examinations.

COURSE LEADING TO THE DEGREE OF B.S.A. (BACHELOR OF SCIENCE IN AGRICULTURE)

This is a four-year course. By carefully selecting 30 units of work in the first two years of Arts and Science at the College, students may proceed to the University and complete the work for the B.S.A. degree in two years.

FOREST ENGINEERING AND FORESTRY

The University of British Columbia offers a course leading to the degree of B.A.Sc. in Forest Engineering and also a course leading to the degree of B.S.F.

COMBINED COURSES

The combined courses in Botany and Forestry, Commerce and Forestry, and Economics and Forestry, were discontinued at the close of the 1945-46 session. However, students who have already entered these courses and who still require one year of further work to complete the courses may do so by fulfilling the requirements set forth on pages 322 and 323 of the 1945-46 Calendar of the University.

ADMISSION

For admission to the course of Forest Engineering a student must have completed the First Year of Arts and Science with credit for the courses shown below, or the equivalent by Senior Matriculation.

English 100 and 101, Mathematics 100, Chemistry 100, Physics 100, Latin 101, or French 101, or German 90.

For admission to the B.S.F. course a student must take Biology 100 instead of Physics 100.

The passing grade for entrance to Applied Science is 60 per cent. in Mathematics, Chemistry, Physics and Biology, and 50 per cent. in other subjects.

COURSES

Two main avenues of approach are open to students interested in forestry as a profession: **Forest Engineering**, in which the main stress is placed upon the engineering phases of the extraction and conversion of forest products; and **General Forestry** which deals with the growing, improving and administering of forest stands. In addition both options deal with the manufacturing and marketing phases of the forest industries.

In the **General Forestry** (B.S.F.) course, the student has the opportunity of following one of three main branches of forestry: **Technical Forestry**, which includes advanced courses in Silviculture, Mensuration and Forest Management; **Forest Business Administration**, in which courses in accounting, commercial law, marketing, business finance and industrial management are super-imposed upon his basic forestry training; and **Chemical Wood Products**, in which the student receives a thorough training in chemistry as well as forestry and will be fitted to carry on post-graduate work in the chemical utilization of wood.

COURSE LEADING TO THE DEGREE OF B.H.E.

(Four-year course, two years of which may be taken at
Victoria College)

First and Second Years

Courses must be chosen in conformity with the following requirements:

	Units
(1) Required course	24
(a) English 100 and 101 in the First Year	3
(b) Chemistry 100 in the First Year	3
(c) Chemistry 225	3
(d) Biology 100	3
(e) Physics 100	3
(f) Home Economics 90 (First Term).....	1½
Required only if the student does not have credit in Home Economics (A) III or Home Economics (CC)III or equivalent.	
(g) Home Economics 91 (Second Term)	1½
Required only if the student does not have credit in Home Economics (B) III or Home Economics (CC)III or equivalent.	
(h) Home Economics 100 (First Term).	1½
(i) Home Economics 101 (Second Term)	1½
(j) Home Economics 200 (First Term).....	1½
(k) Home Economics 201 (Second Term)	1½
(2) Three courses from the following: Botany 200, Economics 200 or Economics 100, English 200, Geography 101 or Geog- raphy 102, History 101 or History 202 or History 203, language (maximum 6 units), Mathematics 100, Mathematics 200 or Mathematics 201, Philosophy 100, Psy- chology 100, Sociology 200, Zoology 200	9

Notes

1. Botany 200, Economics 200, Sociology 200, and Zoology 200 are not open to First Year students.

2. Economics 200 and Psychology 100 are required courses for the degree in Home Economics and are to be taken in the Second Year.

3. If the student has presented Home Economics (CC)III for University Entrance, Home Economics 100 and 101 are to be taken in the First Year and Home Economics 200 and 201 in the Second Year.

If the student has presented Home Economics (A)III for University Entrance, Home Economics 91, 100, and 101 are to be taken in the First Year and Home Economics 200 and 201 in the Second Year.

If the student has presented Home Economics (B)III for University Entrance, Home Economics 90 and 101 are to be taken in the First Year and Home Economics 100, 200, and 201 in the Second Year.

If the student has not the required Home Economics standing from the high schools, Home Economics 90, 91, and 101 are to be taken in the First Year and Home Economics 100, 200, and 201 in the Second Year.

If the student enters with Home Economics (CC)IV taken as a Senior Matriculation subject, 3 units will be credited toward the First Year in Home Economics.

COURSE LEADING TO A DEGREE IN PHARMACY

(Four-year course, one year of which may be taken at
Victoria College)

First Year

English 100 and 101, Mathematics 100, Chemistry 100, Physics 100, and an elective. Students who have not obtained standing in Latin III of the high school course of study are advised to take Latin 90 as the optional subject.

COURSE LEADING OF BACHELOR OF LAWS

For admission to the Faculty of Law, students must present evidence of having successfully completed not less than two years of work in the Faculty of Arts and Science at the University of British Columbia, or its equivalent at an approved university.

These two years in Arts and Science may be taken at Victoria College.

PRE-NORMAL COURSE

This is a one-year course which fulfills the academic requirements for a First Class Teaching Certificate in the Province of British Columbia. It has been specially designed to dovetail with Normal School work.

The course contains neither Mathematics nor a Foreign Language, but is wholly composed of subjects that are of immediate and practical value to the teacher. It is open to all students with University Entrance, and carries 15 units of credit toward a degree in Arts.

The requirements for the year's work are as follows:

English 100 and 101.

History 202 or 203.

Psychology 100.

Geography 102.

Biology 100, or Chemistry 90 or 100, or Physics 100 or 120, or Geography 101.

PRE-BUSINESS COURSE

(Not Given in 1947-48)

This is a one-year terminal course leading to a diploma. It is open to all holders of High School Graduation Certificate who have received C+ or better rating in the work of Grade 12, whether they have obtained University Entrance or not.

In the case of High School Graduates with University Entrance, this course carries partial university credit toward a degree—9 units in all. In the case of High School graduates without University Entrance, it carries no university credit toward a degree. It is primarily intended for students who for one reason or another do not see their way to taking a four-year university course, but who feel that one year of pre-vocational work at the university level will equip them more adequately for business life.

The requirement for the year's work is as follows:

Pre-Business English. (See under Department of English).

Pre-Business History. (See under Department of History).

Psychology 100.

Economics 200.

Geography 102.

Students who complete this course, and in addition present a certificate from a recognized Business College or High School stating that they have passed, at the close of their Victoria College Session, an examination in shorthand and typing at the level required in the final year of the High School Commercial Course, will be granted a Secretarial Diploma. This Diploma will qualify them to hold the better secretarial and stenographic positions in the business world.

Students intending to pursue courses in Medicine, Home Economics, Law, Physical Education, etc., should obtain particulars of the requirements for these courses from the University or Institution at which they plan later to study.

NIGHT CLASSES

Special Night Classes in the First and Second Years of Arts are arranged at the beginning of each session. These classes are not open to students registered in the regular day classes. No student may take more than one Night Class Course (3 units) each session. Night Class students are subject to the same regulations and examinations as day students.

The classes to be offered in 1947-48 will be announced at the beginning of the session. Students interested should write for particulars about September 1st, 1947. The courses offered are chosen from the regular curriculum.

EXAMINATIONS AND ADVANCEMENT

1. Examinations in all subjects, obligatory for all students, are held in December and in April. Applications for special consideration on account of illness or domestic affliction must be submitted to the Registrar not later than two days after the close of the examination period. In cases where illness is the plea for absence from examinations, a medical certificate must be presented to the Registrar's office.

2. The passing mark will be 50 per cent. in each subject. The regulations governing admission to the

First Year of Applied Science are outlined on page 26 under the heading, "Courses Leading to the Degree of B.A.Sc. (Applied Science)." In any course which involves both laboratory work and written examinations, students may be debarred from examinations if they fail to present satisfactory results in laboratory work, and they will be required to pass in both parts of the course. In any course requiring term essays, no credit will be granted to students who have failed to hand in such essays by the dates specified.

3. Successful candidates taking at least fifteen units of work will be graded as follows: First Class, an average of 80 per cent. or over; Second Class, 65 to 80 per cent.; Passed, 50 to 65 per cent.

4. A supplemental will be granted in a subject which a candidate has taken during the year, provided he has written the final examination and has obtained a mark of not less than 30 per cent. A candidate, however, will not be granted in any one year supplementals in more than six units.

Notice will be sent to all students who are entitled to supplemental examinations.

5. A request for the re-reading of an answer paper must be forwarded to the Registrar within two weeks after the results of the examinations are announced. Each applicant must state clearly his reasons for making such a request in view of the fact that the paper of a candidate who makes less than a passing mark in a subject is read at least a second time before results are tabulated and announced. A re-reading of an examination paper will be granted only with the consent of the Head of the Department concerned. The fee for re-reading a paper is \$2.00.

6. Supplemental examinations will be held in September. A candidate who has been granted a supplemental may try the supplemental only once. If he fails in the supplemental he must either repeat his attendance in the course or substitute an alternative chosen in accordance with Calendar regulations.

A candidate with a failure or a supplemental examination outstanding in any subject which is on the Summer Session curriculum of the University, may clear his record by attending the Summer Session course in the subject and passing the required examinations.

7. Applications for supplemental examinations, accompanied by the necessary fees (see Schedule of Fees) must be in the hands of the Registrar by August 15th.

8. No student may enter a higher year with standing defective in respect of more than 3 units (see regulations in regard to advancement to Third Year Commerce, page 27, and in reference to First Year Applied Science, page 26. No student who has failures or supplementals outstanding in more than 3 units, or who has any failure or supplemental outstanding for more than a year of registered attendance, shall be allowed to register for more than 15 units of work, these units to include either the subject (or subjects) in which he is conditioned or permissible substitutes.

9. A student may not continue in a later year any subject in which he has a supplemental examination outstanding from an earlier year, except in the case of compulsory subjects in the Second Year.

10. A student who fails twice in the work of the same year may, upon the recommendation of the Faculty, be required by the College Council to withdraw from the College.

11. Any student whose academic record, as determined by the tests and examinations of the first term of the First or Second Year, is found to be unsatisfactory, may, upon the recommendation of the Faculty, be required by the College Council to discontinue attendance at the College for the remainder of the session. Such student will not be re-admitted to the College as long as any supplemental examinations are outstanding.

12. Term essays and examination papers will be refused a passing mark if they are noticeably deficient in English, and, in this event, students will be required to pass a special examination in English, to be set by the Department of English.

DEPARTMENT OF BIOLOGY, BOTANY AND ZOOLOGY

Biology 100 (1)—Introductory Biology.—The course is introductory to more advanced work in General Biology, Botany or Zoology; also to courses closely related to Biological Science, such as Agriculture, Forestry, Medicine, Nursing, Pharmacy, Fisheries, Home Economics.

The fundamental principles of Biology; the interrelations of plants and of animals; life processes; the cell and division of labour; life-histories; relation to environment; dynamic biology.

The course is prerequisite to all courses in General Biology, Botany and Zoology.

Text-book: Marsland and Plunkett: **Principles of Modern Biology**, Holt.

Two lectures and three hours laboratory per week.
Three units.

VICTOR

COLLEGE

Botany 200 (1a)—Botany (Introductory). An introductory course that gives a general perspective of the plant kingdom. Physiological anatomy, ecological relations, and developmental trends are illustrated by specific example.

This course is prerequisite to all other courses in Botany.

Reference: Holman and Robbins, **General Botany**, Wiley.

Prerequisite: Biology 100.

Three lectures and three hours laboratory per week.
Three units.

Zoology 200 (1)—General Zoology.—A course on the structure, classification, life histories, and biology of animals.

This course is prerequisite to other courses in Zoology.

References: Storer, **General Zoology**, McGraw-Hill, Hegner, **College Zoology**, 4th edition, Macmillan; Buchsbaum, **Animals Without Backbones**, University of Chicago; Romer, **Man and the Vertebrates**, University of Chicago.

Prerequisite: Biology 100.

Three lectures and three hours laboratory per week.
Three units.

DEPARTMENT OF CHEMISTRY

90 (A)—Survey Course in General Chemistry.—This course is designed to acquaint the student with the part that chemistry as one of the fields of knowledge has played, and is playing, in the development of our civilization, and in the extension of our understanding of the physical world. The scientific method as a mode of thought will be stressed and illustrated by laboratory experiments and lecture demonstrations.

This course will not be accepted as fulfilling the prerequisite for Chemistry 200, or any subsequent Chemistry course.

Text-book: Holmes, **Introductory College Chemistry**, Macmillan.

Three lectures and two hours laboratory per week.
Three units.

100 (1)—General Chemistry.—A study of inorganic chemistry against a background of theory. Chemical arithmetic, the Periodic Table, and the fundamental theories will be stressed. Students must reach the required standard in both lecture and laboratory work.

Note: Students who have not taken High School Chemistry A will be required to take additional class work.

Text-book: Foster and Alyea, **An Introduction to General Chemistry**, Van Nostrand.

Three lectures and three hours laboratory per week.
Three units.

200 (2)—Qualitative and Quantitative Analysis.

(a) Qualitative Analysis. — A study of the chemical reactions of the common metallic and acid radicals, together with the theoretical considerations involved in these reactions.

Text: Noyes and Swift, **Qualitative Analysis**, Macmillan.

References: Engelder, **Calculations of Qualitative Analysis**, Wiley; Hammett, **Solutions of Electrolytes**, McGraw-Hill; Reedy, **Theoretical Qualitative Analysis**, McGraw-Hill.

(b) Quantitative Analysis.—This course embraces the more important methods of gravimetric and volumetric analysis.

Text-book: Willard, Furman and Flagg, **Quantitative Analysis**, Van Nostrand; or Booth and Damerell, **Quantitative Analysis**, McGraw-Hill.

Prerequisite—Chemistry 100.

Two lectures and six hours laboratory per week.
Three units.

225 (C)—Organic Chemistry.—A study of the more important families of organic compounds both aliphatic and aromatic, with particular reference to their physiological importance. Representative syntheses will be performed in the laboratory.

Prerequisite: Chemistry 100.

Open only to students taking Home Economics or a Pre-Dental course.

Text-book: Lowy and Harrow, **An Introduction to Organic Chemistry**, Wiley; Laboratory Manual: Board, Brode, Bossert, **Laboratory Outlines and Notebook for Organic Chemistry**, Wiley.

Three lectures and three hours laboratory a week.
Three units.

DEPARTMENT OF CLASSICS

GREEK

Greek 101 is open to students who have presented Greek for University Entrance; Greek 202 is open to students who have passed in Greek A, or in Greek 101, or in Senior Matriculation Greek.

Greek A—A new approach to Greek through Homer; a course for beginners.

The primary aim of this course is to provide such mastery of the fundamentals of Greek grammar as to enable the student in the latter part of the year to read with appreciative understanding selections from Homer's **Odyssey** and later (in Greek 202) to make transition to the prose of Plato.

In addition, the course emphasizes throughout our debt to Greece and the Greeks: it includes a careful study of the origins and meanings of hundreds of English words (from **acephalous** to **zoology**) derived from the Greek vocabulary being studied; and it provides readings outlining the basic contributions made by the Greeks to Art, History, Literature, Philosophy and Science.

Text-books: Schoder and Horrigan, **A Reading Course in Homeric Greek**, First Year Book, Loyola University Press; Robertson and Robertson, **The Story of Greece and Rome**, Chapters I-XXXII, Dent.

Four hours a week. Three units.

101 (1)—Introduction to Greek Prose Authors.—After completing the beginners' book, the course will present the first book of Xenophon's eye-witness account of the march made by the "Ten Thousand" Greeks into Asia Minor. There will be practice in composition, and reading in the history of Greece.

Text-books: White, **First Greek Book**, Chapters XLIX-LXXX, Ginn; North and Hillard, **Greek Prose Composition** (one exercise each from sections 1-16), Rivingtons; Robertson and Robertson, **The Story of Greece and Rome**, Chapters I-XXXII, Dent.

Text: Xenophon, **The First Four Books of Xenophon's Anabasis**, Goodwin and White, Ginn.

Four hours a week. Three units.

202 (2)—Epic Poetry and Attic Prose.—Selections from Homer's *Iliad* and *Odyssey* will be followed by Plato's account of Socrates' defence at his trial. There will be practice in composition and a brief survey of Greek literary history.

Text-books: North and Hillard, **Greek Prose Composition** (sections 1-44), Rivingtons; Norwood, **The Writers of Greece**, Oxford Press.

Texts: Schoder and Horrigan, **A Reading Course in Homeric Greek**, Second Year Book, Loyola University Press; Plato, **Apology**, with vocabulary, A. M. Adam, Cambridge Press.

Four hours a week. Three units.

LATIN

Latin 101 is open to students who have presented Latin for University Entrance or have taken the beginners' course; Latin 202 is open to those who have passed Latin 101 or in Senior Matriculation Latin.

90—Beginners' Latin.—This course is intended for students who have no previous knowledge of Latin. It is open for credit only to students who have not offered Latin for credit in University Entrance.

The aims of the course include (1) a mastery of what is fundamental in Latin Grammar and Composition and the learning of a basic Latin vocabulary; and (2) a continuous correlation with English, in a careful study of the origins and meanings of English words derived from Latin and of the structure of the English sentence. During the latter part of the year selections from Latin authors will be read.

Text-book: Collar and Daniell, **First Year Latin**, revised by Jenkins, Ginn

Text: To be announced.

Four hours a week. Three units.

101 (1) — Introduction to Latin Literature.—The course opens with selections from prose authors; in the Second Term will be read selections from some of the representative poets of the late Republic and the early Empire. There will be practice in composition and reading in the history of Rome.

Text-books: Marchant and Watson, **Latin Prose Composition**, Bell; Robertson and Robertson, **The Story of Greece and Rome**, Chapters XXXIII–LIV, Dent.

Texts: **A Book of Latin Prose Selections**, Neville, Dale, Breslove, Tracy, Macmillan; **A Book of Latin Poetry**, Neville, Jolliffe, Dale and Breslove, Macmillan.

Three hours a week. Three units.

202 (2)—Prose and Poetry of the Golden Age.—Reading in some of the prose of Cicero and in the developed epic as represented by Vergil; a brief history of Greece.

Text-books: Robertson and Robertson, **The Story of Greece and Rome**, Chapters I–XXXII, Dent; Allen and Greenough, **New Latin Grammar**, Ginn.

Texts: Cicero, **Catilinarian Orations**, Upcott, Oxford University Press; Vergil, **Aeneid VI**, Page, Macmillan.

Three hours a week. Three units.

DEPARTMENT OF COMMERCE

The courses in this department, with the exception of Commerce 191, are open only to candidates for the degree of B.Com.

251 (1)—Fundamentals of Accounting.—The technique of account construction; preparation of financial statements; the application of accounting principles to practical business problems; a consideration of corporation accounting; preliminary study of depreciation.

Written assignments must be prepared for each class period, and in addition one or two model sets of accounts are handled during the course of the academic year. Owing to the continuity of the

work in accounting, students who are more than two weeks late in registering will not be permitted to register in Commerce 251 without the permission of the instructor. In order to qualify for examination the student is required to submit 75 per cent. of the written assignments.

Commerce 251 is a prerequisite to all other courses in Commerce.

Text-book: Johnson, *Elementary Accounting*, Rinehart.

Four hours a week. Three units.

DEPARTMENT OF ECONOMICS

Note.—Economics 200 is the prerequisite for all other courses in the Department except Economics 100, and Economics 205.

100 (2)—Economic History.—A survey of factors of major social and economic significance in the rise and development of Western civilization, from early times to the present day. Special attention will be given to major economic changes in Europe and the North American continent during the last two centuries.

Text-book: Heaton, *Economic History of Europe*, Harpers.

References: Heaton, *History of Trade and Commerce with Special Reference to Canada*, revised edition, Nelson; Currie, *Canadian Economic Development*, Nelson; Faulkner, *American Economic History*.

Three hours a week. Three units.

200 (1)—Principles of Economics.—An introductory study of the principles of production, value, distribution, money and banking, international exchange, and government finance, and an analysis of the problems of labour and social reform.

Text-book: Ise, **Economics**, Harpers.

References: Logan and Inman, **A Social Approach to Economics**, Toronto; Fairchild, Furniss, Buck, **Elementary Economics**, 4th edition, Macmillan; Bladen, **Political Economy**, University of Toronto; McIsaacs and Smith, **Essential Economic Principles**, Little and Brown.

Three hours a week. Three units.

205 (10) — Commercial Geography. — (This is the same as Geography 102.)

DEPARTMENT OF ENGLISH

100 (1a)—Literature.—Elementary study of a number of literary forms to be chosen from the short story, the play, the novel, the essay, the simpler sorts of poetry.

Texts: Euripides, **Electra**, in Gilbert Murray's paraphrase; Shakespeare, **Othello**; Sheridan, **The School for Scandal**, Dent; Bernard Shaw, **Saint Joan**, Constable; **Twentieth Century Verse**, ed. Dilworth, Clarke and Irwin, Havinghurst, Walter, **Masters of the Modern Story**, Harcourt, Brace and Co.

Two hours a week.

101 (1b) — Composition. — Elementary forms and principles of composition.

Text-book: Foerster and Steadman, **Writing and Thinking**, new edition, Houghton Mifflin.

The work in composition consists of (1) themes and class exercises, and (2) written examinations. Students will be required to make a passing mark in each of these two parts of the work.

Two hours a week. Three units.

200 (2)—Literature.—Studies in the history of English Literature. Lectures and texts illustrative of the chief authors and movements from Tottel's Miscellany to Shelley.

Text-book: Legouis, *A Short History of English Literature*, Oxford.

Texts: *The College Survey of English Literature*, Shorter Edition, Harcourt, Brace; Shakespeare, *King Henry IV*, Part 1, and *Hamlet*; Jane Austen, *Pride and Prejudice*, Longmans (Pocket edition); Scott, *The Bride of Lammermoor*.

Three hours a week. Three units.

Pre-Business English. (No University Credit.)

(a) Literature—As in English 100, with the exception of "the play," which will be confined to the Twentieth Century.

Texts: Apart from "the play," these will be as in English 100.

(b) Composition—Business writing and correspondence, taking of minutes, and preparation of briefs.

Text: To be announced.

(Not given 1947-48.)

DEPARTMENT OF GEOGRAPHY

Students intending to major in Geography are required to take Geography 101 and 102 as prerequisites to all other courses in Geography. Geography 101 is one of the elective sciences as stated on page 20, sec. 1(c) of the Calendar.

Students not intending to major in Geography will be permitted to take some of the senior courses in Geography if they offer one of the other science electives and take Geography 102 in their First or Second Year.

101 (1)—Elementary Physical Geography.—This introductory course aims to furnish a foundation for the study of geography. It will be useful not only to those who may intend to continue a study of geography or to teach it in schools, but to all those who are interested in man's physical environment. This course covers the study of land forms, processes of weathering, erosion, diastrophism, materials of the earth's crust, climate, and history of the earth. The laboratory part of the course includes elementary surveying and map making, interpretation of topographic maps, the study of common minerals, rocks, and fossils.

Text-book: Thompson, **Fundamentals of Earth Science**, 1947. Appleton-Century.

References: Wilmore, **Groundwork of Modern Geography**, Bell; Finch and Trewartha, **Elements of Geography**, McGraw-Hill; Moore, **Elementary Geology for Canada**, Dent.

Two lectures and two hours laboratory a week. Three units.

102—Introductory Human and Economic Geography—A general introductory course dealing with man and his occupations. It will be useful for those intending to major in the social sciences. The course deals with the effect of physical environment upon the distribution of the world population, and gives the geographic basis of world population problems. It discusses the distribution of various natural resources as a background to the understanding of national problems of trade and commerce and the interchange of products.

Text-book: Hammond, **World Orientation Atlas**, 1946.

References: Huntington, **Principles of Human Geography**, 5th edition, 1946, Wiley; Bengston and Van Royen; **Fundamentals of Economic Geography**, 1946, Prentice-Hall; Finch and Trewartha, **Elements of Geography, Physical and Cultural**, 1942, McGraw-Hill; Case and Bergsmark, **College Geography**, 1940, Wiley.

Three lectures a week. Three units.

202 (2)—Weather and Climate.—A study of weather phenomena, climatic classification and description, and distribution of climatic types.

Text-book: Trewartha, **An Introduction to Weather and Climate**, 2nd edition, 1943, McGraw-Hill.

References: Blair, **Weather Elements**, Prentice-Hall; Kendrew, **Climate of the Continents**, Oxford.

Two lectures and two hours laboratory a week.
Three units.

DEPARTMENT OF HISTORY AND SOCIOLOGY

HISTORY

101 (1)—Main Currents in Twentieth-Century History.—This course completes the study of World History in the high schools and offers a background for contemporary World problems. This course is prerequisite to History Honours.

Text-books: Benns, **Europe Since 1914**, Crofts, or Chambers, Grant and Bayley, **The Age of Conflict**, Harcourt, Brace; Schmitt, **The Triple Alliance and Triple Entente**, Oxford.

Essays will be assigned throughout the Session.

Four hours a week. Three units.

The fourth hour will be devoted to group discussions.

202 (2)—History of Canada.—A general introductory course on Canadian History from the earliest times to the present. This course is required for Second Year Honours credit.

Text-books: Lower, **Colony to Nation**, Longmans; Wrong, **The Canadians**, Macmillan; Creighton, **Dominion of the North**, Houghton Nifflin; Sage, **Canada from Sea to Sea**, University of Toronto.

Essays will be assigned throughout the Session.

Three hours a week. Three units.

203 (3)—Canada West of the Great Lakes.—The place of Western Canada in Canadian development.

Text-books: Lower, *Colony to Nation*, Longmans; Wrong, *The Canadians*, Macmillan; Creighton, *Dominion of the North*, Houghton Mifflin; Sage, *Canada from Sea to Sea*, University of Toronto.

Essays will be assigned throughout the Session.

Three hours a week. Three units.

(Not offered in 1947-48.)

304 (4)—Mediaeval Europe, 500-1300.—

A general outline of mediaeval history from the fall of the Roman Empire to the 13th century. Sketches of Byzantine history and of the rise of Islam are included, but the main emphasis is laid upon the culture of the 12th and 13th centuries in the West.

Text-book: Stephenson, *Mediaeval History*, revised edition, Harpers.

Essays are assigned throughout the Session.

Three hours a week. Three units.

Pre-Business History. (No University credit.)

Present-day Canadian problems—their origin, development, and significance. Broad reading, essays and discussion.

Text: To be announced.

(Not given in 1947-48.)

As copies of the text-books for the various courses in History are available in the College Library, purchase of such books by the student is optional. It is inadvisable for students to purchase text-books without first consulting the Instructor.

SOCIOLOGY

200 (1)—Introduction to Sociology.—The approach to the study of society is by way of the local community and its institutions. An evaluation of the importance of the geographic, the biological, the psychological, and the cultural factors in the determination of the rise, growth, and functioning of groups will be undertaken. There will be an attempt to discover fundamental principles and to trace these principles in their interrelations. Several of the problems resulting from group contacts will be studied.

Text-book: Gillin and Gillin, *An Introduction to Sociology*, Macmillan.

Three hours a week. Three units.

— — — —

DEPARTMENT OF HOME ECONOMICS

The following courses are open only to students of the degree course in Home Economics.

90 (A) Introduction to Foods and Nutrition.—An introductory course designed to give basic principles of food preparation and of nutrition.

Text-book: Bogert, *Nutrition and Physical Fitness*, 4th edition, Saunders.

Two lectures and three hours laboratory a week.

First Term. 1½ units.

91 (B)—Introduction to Textiles and Clothing.—An introductory course designed to give basic principles of textile selection and of clothing construction by using commercial patterns.

Text-book: Erwin, *Practical Dress Design*, Macmillan.

Two lectures and three hours laboratory work a week.

Second Term. 1½ units.

100 (1) — Foods and Nutrition.— Lectures are devoted to a study of human nutrition with emphasis on the requirements of the normal adult. The preparation of various types of food is presented from the experimental viewpoint in the laboratory hours.

Text-book: Chaney and Ahlborn, **Nutrition**, 3rd edition, Houghton Mifflin.

Prerequisite: Home Economics 90 or equivalent.

Two lectures and three hours laboratory work a week.
First Term. 1½ units.

101 (2)—Principles of Design.—The study and application of fundamental art principles to problems in design. Application of design principles to dress. Wardrobe planning.

Text-book: Goldstein, **Art in Everyday Life**, 3rd edition, Macmillan.

Two lectures and three hours laboratory a week.
Second Term. 1½ units.

200 (3)—Clothing.—Development of foundation patterns. Flat pattern designing. Consumer problems in relation to ready-to-wear.

Text-book: Latzke and Quinlan, **Clothing**, Lippincott.

Prerequisites: Home Economics 91 or equivalent, and Home Economics 101.

Two lectures and four hours laboratory a week.
First Term. 1½ units.

201 (4)—Food Management.—Food buying, meal planning, and table service; food preparation, food legislation; brands, grades.

Text-book: Justin, Rust, and Vail, **Foods**, revised edition, Houghton Mifflin.

Prerequisite: Home Economics 100

Two lectures and three hours laboratory a week.
Second Term. 1½ units.

DEPARTMENT OF MATHEMATICS

100 (1)—Introductory Mathematics.—An elementary course in algebra, including proportion, variation, logarithms, progressions, theory of quadratic equations, permutations, combinations, annuities, binomial theorem; analytical geometry, including the study of the straight line and circle, with an introductory study of the parabola, ellipse and hyperbola; elementary trigonometry.

Text-books: Currier Watson and Frame, **General Mathematics**, Macmillan; **Five Place Logarithmic and Trigonometric Tables**, Macmillan. Students who plan to enter the Faculty of Applied Science should obtain McGraw-Hill's **Six Place Tables**.

Four hours a week. Three units.

200 (2)—Algebra and Geometry.—Review of fundamentals, mathematical induction, complex numbers, theory of equations, determinants, convergence and divergence of series, and probability; review of conics, polar co-ordinates, and solid analytic geometry.

Text-books: Nowlan, **College Algebra**; Nowlan, **Analytic Geometry**, 3rd edition, McGraw-Hill.

Three hours a week. Three units.

201 (3)—The Mathematical Theory of Investments.—This course deals with the exponential law, the power law, curve fitting, the theory of interest, annuities, debentures, valuation of bonds, sinking funds, depreciation, probability and its application to life insurance.

Text-book: Hart, **Mathematics of Investment** (with tables), revised edition, Heath.

Three hours a week. Three units.

202—Calculus.—Introduction to differential and integral calculus, with applications.

Text-book: Miller, **Calculus**, Wiley.

Three hours a week. Three units.

DEPARTMENT OF MODERN LANGUAGES

FRENCH

101 (1)—Text-book: Barton and Sirich, *New French Review, Grammar and Composition*, Crofts (1941.)

Texts: *Types of the French Short Story*, edited by March, (Nelson); Molière, *Le Bourgeois gentilhomme*, Didier; *Les Cent meilleurs poèmes lyriques*, Gowans and Gray.

Considerable written work will be required throughout the course, as one of the chief aims will be to develop an ability to write correct French sentences.

Three hours a week. Three units.

Summer Reading

Upon entering the Second Year the student must satisfy the Instructor that he has read the following: Louis Hémon, *Marie Chapdelaine*, Fayard.

202 (2)—Texts: Anatole France, Nelson; Balzac, *Le Père Goriot*, Nelson; *Les Cent meilleurs poèmes lyriques*, Gowans and Gray. Independent reading to include Balzac, *Eugénie Grandet*; Anatole France, *Le Crime de Sylvestre Bonnard*, Holt; the author listed under *Summer Reading*; and other readings to be assigned later.

Composition in French based on the above texts. Much time will be devoted to practice in writing paragraphs and short essays.

There will be oral practice and tests.

Four hours a week. Three units.

203.—*The Background of Modern French Literature*—Instruction in the organization of work; training in speech and writing. Open to students preparing for Honours.

Three hours a week. Three units.

For Summer Reading for those proceeding to Third Year French, see Calendar of the University of British Columbia.

GERMAN

90—Beginners' Course.—Schinnerer, *Beginning German*, Macmillan; Hagboldt, *Graded German Readers*, Elementary Alternate, Books I-V, Heath.

Four hours a week. Three units.

100 (1a).—Texts: Chiles, *German Composition and Conversation*, Part I, Ginn; Hagboldt, *Graded German Readers*, Intermediate, Books VI-X, Heath; Kastner, *Drei Manner im Schnee*, Crofts; Bruns, *Book of German Lyrics*, Heath.

Prerequisite: University Entrance or Beginners' German.

Three hours a week. Three units.

101 (1b).—Scientific German.—An introduction to the reading of scientific German, supplemented by a review of essentials in German grammar and composition.

Text-books: Wild, *An Introduction to Scientific German*, Oxford; Wild, *An Anthology of Scientific German*, Oxford; Chiles, *German Composition and Conversation*, Part I, Ginn.

Prerequisite: University Entrance or German 90.

Three hours a week. Three units.

(Not offered in 1947-48.)

DEPARTMENT OF PHILOSOPHY AND PSYCHOLOGY

PHILOSOPHY

100 (1)—Introduction to Philosophy.—An introductory study of the questions raised by major philosophers who have contributed to the background of present-day thought. This study will be based on a reading of selected primary sources, and it will aim at obtaining perspective on contemporary scientific, literary, social, and religious issues.

Text-books: Plato, *The Republic*, Scribners;

Randall, Buckler, and Shirik, **Readings in Philosophy**, Barnes and Noble.

Three hours a week. Three units.

205.—General History of Philosophy.—A general survey of the history of philosophy from the Greeks to the present day. This course is intended primarily for general course students.

Text-book: Schneider and Edman, **Landmarks for Beginners in Philosophy**, Reynal and Hitchcock.

Three hours a week. Three units.

PSYCHOLOGY

Psychology 100 is a prerequisite for all courses in Psychology numbered 200–500.

100 (A).—Introductory Psychology.—A scientific and practical study of the basic forms of human thinking, emotion, and activity.

Text-book: Munn, **Psychology**, Houghton and Mifflin.

Three hours a week. Three units.

200 (2).—Experimental Psychology.—An introduction to the application of scientific method to the study of human behavior and experience. The experimental, genetic, and case history methods; the performance of individual and group laboratory studies to illustrate these methods; laboratory technique; elementary statistics.

Two lectures and two hours laboratory a week.

Three units.

(Registration for this course will be limited.)

DEPARTMENT OF PHYSICS

100 (1).—Elementary Physics.—A study of general college physics suitable for those students who have obtained credit for University Entrance Physics A or its equivalent. The course covers the fundamental principles of mechanics, properties of matter, heat, light, sound, electricity and some

of the more recent developments in physics. Students who do not have the necessary prerequisites must take an additional hour a week of tutorial work. This course is designed primarily for Honours Science and Engineering students.

Prerequisite: University Entrance Physics A.

Text-book: Stewart, **Physics, A Text-Book for Colleges**, 4th edition, Ginn.

Reference: Smith, **Elements of Physics**, McGraw-Hill.

Three lectures and two hours laboratory a week.

Three units.

120.—A Survey of Physics.—A course of demonstration lectures in non-mathematical language presenting the fundamental principles of physics so that they can be understood by students who have had no previous training in the subject. The lectures deal with the principles of mechanics, heat, light, sound, electricity, and atomic structure, and are supplemented by practical work in the laboratory. The chief aim of the course is to give the minimum acquaintance with physical science requisite for a liberal education to those whose studies will be mainly literary. There are no prerequisites. Students who have received credit for Physics 100 may not take this course.

Text-book: White, **Classical and Modern Physics**, Van Nostrand.

Reference: Lemon, **From Galileo to Cosmic Rays**, University of Chicago.

Three lectures and two hours laboratory a week.

Three units.

200 (4).—Mechanics, Molecular Physics, and Heat.—A study of statics and dynamics of both a particle and a rigid body, the laws of gases, molecular theory, temperature, calorimetry, radiation laws, and elementary thermodynamics.

Text-books: Reynolds, **Elementary Mechanics**, Prentice-Hall; Allen and Maxwell, **Text-book of Heat Part I and II**, Macmillan.

Prerequisite: Physics 100.

Three lectures and three hours laboratory per week.

Three units.

SCHOLARSHIP WINNERS 1945-46

University Scholarships for University Entrance for Victoria District

First Place Margaret E. Creasey
 Second Place David H. Clegg

Victoria Women's Canadian Club Scholarships (from University Entrance)

(1) Marjorie E. Dupont (2) John F. Boshier

Cecilia Green Memorial Scholarship (from University Entrance)
 Ruth E. Hanington

Vancouver Sun Carrier Scholarship (from University Entrance)
 John T. Saywell

Percy H. Elliott Memorial Scholarship . . . O. Judith Dundas
 Royal Institution and Frank Eaton Memorial Scholarship

O. Judith Dundas

Alliance Francaise Prize Shirley Drysdale Kelly

David Spencer's, Limited, Scholarship L. Louise Lyne

Kiwanis Club Scholarship Brian W. F. McLoughlin

Quita Nichol Bursaries

(1) O. Judith Dundas, by reversion to Ruby P. Joe

(2) Catherine R. Sheffield

(3) Dorothy G. Cross

University Women's Club Scholarship . . . Corrine Y. Earle

Kathleen Agnew Scholarship Marjorie A. Alldritt

Hudson's Bay Company Scholarship Walter H. Stuart

Sidney Roofing and Paper Company Scholarship

O. Judith Dundas by reversion to K. H. Michael Creal

The Canadian Legion, B.E.S.L., (Victoria, B.C.),

Sir Percy Lake Memorial Scholarship Hugh S. A. Gilmour

The British Columbia Electric Railway Company, Limited,

Scholarship David B. Mackenzie

The British American Paint Company Scholarship

Lewis H. Hughes and John W. B. Redford (equal)

Victoria Gyro Club Scholarship George S. Cumming

Victoria Municipal Chapter Imperial Order of the Daughters of
 the Empire Scholarship Clifford C. Rennie

Kin-men Club of Victoria Scholarship Jack E. Kendrick

Esther Pearce Memorial Prize Corrine Y. Earle

Special Scholarship for Latin 202

O. Judith Dundas by reversion to Dorothy M. Tubbs

Book Prize for Latin 90 Thomas C. Matheson

Book Prize for Latin 101 George S. Cumming

Book Prize for Biology 100 John W. B. Redford

Book Prize for Zoology 200 Philip Narod

Book Prize for Biology 100 (Spring Session) . . . John S. Clark

Book Prize for Zoology 200 and Botany 200 Edith M. Benson

Book Prize for English 100 Brian W. F. McLoughlin

Slide Rule Prizes for Science

Robert E. Doe and David B. MacKenzie

Slide Rule Prize for Mathematics 100 (Winter Session)

John A. Gower

LIST OF STUDENTS IN ATTENDANCE

SESSION 1946-47

FIRST YEAR

*First Term only.

Adams, Dorothy B.	Sidney, B.C.
Akins, Robert C.	Victoria, B.C.
Alexander, Harold A.	Victoria, B.C.
Allen, Lavender J.	Gordon Head, B.C.
Anastasiou, Ernest	Victoria, B.C.
Anstey, Roger S.	Victoria, B.C.
Archbold, Geoffrey J. D. E.	Duncan, B.C.
Arnison, Diana M.	Victoria, B.C.
Aylard, Bruce L.	Victoria, B.C.
Baines, Lewis J.	Victoria, B.C.
Baird, William G.	Victoria, B.C.
Baker, Clarence G.	Victoria, B.C.
