Calendar

1939-40

ISSUED BY THE VICTORIA BOARD
OF SCHOOL TRUSTEES

IMPORTANT NOTICES

As the College Session is short, the student must be prepared to do intensive work from the first day of the Session to the last. Unless the student adapts himself to these conditions, his chances of success are slight.

The Principal and Staff are most willing at all times to give direction or advice, but the ultimate responsibility in the selection of courses rests with the student.

Regulation of Board of School Trustees of Victoria forbidding Hazing and other Unauthorized Activities.

In any public school or college of the City of Victoria established and maintained under the provisions of the School Act or on the grounds of any such public school or college the following are forbidden:

1. Hazing.
2. Any act by any pupil or student attending any of the above mentioned schools or college or by any one at all causing injury or likely to cause injury to any person or damage to school property.

Any pupil or student violating the above regulation will be liable to immediate expulsion.

Victoria College is governed by the regulations of the University of British Columbia, of which the official statement is the University Calendar: this calendar is a digest of such regulations.

Application for admission should be made as early as possible after August 14, 1939, at the office of the Registrar, Victoria College. Out-of-town students may register by mail. Students registering for the first time must present their Junior Matriculation Certificates.

VICTORIA COLLEGE

In Affiliation with the University of British Columbia

THE purpose of Victoria College is to give students of Victoria City, adjacent municipalities, and Vancouver Island generally, an opportunity of receiving instruction in the first two years in the Arts and Science course (including Commerce) and in the First Year of Applied Science as prescribed by the University of British Columbia. Students can attend classes on the same curriculum as obtains at the parent University; they are submitted to the same tests and examinations, and may proceed directly to their next year in the University of British Columbia, or in any other University which accepts the certificates of the University of British Columbia.

The College building is situated near the junction of Yates and Fort Streets, within two minutes' walk of the street cars, and commands the most beautiful views of the City of Victoria, of the Gulf of Georgia, and of the Olympic Mountains in the State of Washington.

Students from a distance who intend to make teaching their life work, and who choose the Victoria Normal School as the place of their professional education, will find Victoria College admirably situated for the non-professional part of their studies, as they will be near the Principal of the Normal School, who is always pleased to give advice and assistance to young people who wish to enter the teaching profession.

Monthly Summary of Temperature and Precipitation
as taken on the College Standard Instruments daily
at 4:30 p.m.: supplied through the courtesy of Mr. F.
Napier Denison.

Year	Month	Highest °F.	Lowest °F.	Mean °F.	Precipita- tion Inches
1938	October	66.1	37.8	51.8	2.71
1938	November..	55.0	30.4	44.0	2.78
1938	December	54.2	32.0	42.9	6.55
1939	January	51.3	33.0	43.5	5.70
1939	February ..	50.2	25.8	39.1	3.25
1939	March	63.0	30.0	44.7	1.23
1939	April	70.0	37.3	51.0	1.40

THE STAFF

- Percy H. Elliott, M.Sc. (McGill)** Principal
Associate Professor of Science
E. Stanley Farr, B.A., LL.B. (Toronto), Assistant to
Principal.
Assistant Professor of Economics and History
Jeffree A. Cunningham, B.A. (Queen's) Registrar
Assistant Professor of Biology and Zoology
Miss H. Ruth Humphrey, B.A. (Mt. Allison), M.A. (Oxon),
Assistant Professor of English
William Robbins, M.A. (Brit. Col.), Assistant Professor
of English.
George P. Black, M.A. (Man.), Assistant Professor of
Classics.
W. Harry Hickman, M.A. (Brit. Col.), Assistant Professor
of French.
Edward J. Savannah, A.B., S.B. (Calif.), Instructor in
Chemistry.
Robert T. D. Wallace, B.A. (Brit. Col.), Assistant Pro-
fessor of Mathematics.
Sydney G. Pettit, B.A. (Brit. Col.), Librarian and In-
structor in History and Psychology.
Miss Ruth E. Fields, B.A. (Brit. Col.), Assistant in
Biology and Zoology.
Miss Dorothy M. Cruickshank, B.A. (Brit. Col.), Assis-
tant Registrar.

ACADEMIC YEAR—1939-40

1939

- Monday, August 14th—Office opens for registration.
Monday, August 28th—Matriculation Supplemental
Examinations begin.
Tuesday, September 5th—Supplemental Examinations
in Arts begin.
Friday, September 15th—Last day for registration.
Monday, September 18th—Lectures begin.
Monday, October 2nd—Last day for payment of first
instalment of fees. (Second plan.)
Saturday, October 7th—Last day for change in Students'
Courses.
Monday, October 9th—Last day for payment of first
instalment of fees. (First plan.)
Saturday, December 16th—End of First Term.

1940

- Wednesday, January 3rd—Second Term begins.
Thursday, April 12th—Last day of Lectures.
Saturday, April 14th—Sessional Examinations begin.

MATRICULATION

Matriculation requirements are those of the University of British Columbia.

GENERAL INFORMATION

The Session

The College Year or Session is divided into two terms. The first begins on Monday, September 18th, 1939, and the second on Tuesday, January 2nd, 1940.

Courses of Study

For the Session 1939-40 the College offers instruction in the first two years of the Faculty of Arts and Science (including Commerce), and in the first year of the Faculty of Applied Science, leading to the degrees of Bachelor of Arts and Science, Bachelor of Commerce, Bachelor of Applied Science.

By a proper selection of First Year Courses in Arts and Science, students may equip themselves to enter the work of the second year, at the University, of the Combined Course in Nursing and Health, the Double Course in Arts and Science and Nursing and Health, and the course leading to the Social Service Diploma. A suitable selection of courses in the first two years of Arts and Science will enable students to continue, without loss of time, the work in Agriculture at the University.

Courses preparatory to Medicine, Home Economics and Law are given in so far as the curriculum applies.

Board and Residence

A list of approved boarding-houses which receive men or women students, but not both, may be obtained from the Registrar. Men and women students are not permitted to lodge in the same house, unless they are members of the same family, or receive special permission from the Faculty.

REGISTRATION

Office Opens for Registration Monday, August 14th

Application for Admission

All inquiries for admission to the College should be addressed to the Registrar.

Except under special circumstances, no student under the age of sixteen is admitted to the First Year Courses in either of the Faculties.

Candidates for admission to the courses in the First Year are required to pass the Junior Matriculation Examination of the Province of British Columbia, or to submit certificates showing that they have passed an equivalent examination elsewhere.

Students who have passed the Senior Matriculation Examination are admitted to the course of the Second Year in the Faculty of Arts and Science.

Students who have partial Senior Matriculation standing, obtained in 1927 or subsequently, will be granted credit in First Year Arts in each subject in which they have made 50 per cent. or over, or in each paper in which they have made 50 per cent. or over, in so far as these papers correspond with those of First Year Arts. Students over 18 years of age with full "Normal Entrance" standing who hold Normal School certificates are admitted to the College as having full Junior Matriculation standing.

Those who intend to register as students of Victoria College for the session 1939-40 are required to make application to the Registrar before Friday, September 15th, on forms to be obtained at the Registrar's office.

There are three classes of students.

(a) **Full Undergraduates**—Students who have passed all the examinations precedent to the year in which they are registered.

(b) **Conditioned Undergraduates**—Students proceeding to a degree, but who have incomplete entrance

qualifications, or who are required to pass supplemental examinations in a year previous to that in which they are registered.

(c) **Partial Students**—Students not belonging to one of the two preceding classes.

Partial students are not normally required to pass an examination for admission, but, before registering, they must produce a certificate showing that they have satisfied the Principal and the Heads of the Departments concerned that they are qualified to pursue with advantage the course of study which they propose to undertake.

Students living out of town may register temporarily by mail on forms obtainable at the College, provided they complete their registration by the opening day. All other students are required to attend in person at the office of the Registrar between Monday, August 14th, and Friday, September 15th, to furnish the information necessary for the College records, to register for the particular classes which they wish to attend, and to sign the following declaration:

"I hereby accept and submit myself to the statutes, rules, regulations and ordinances of Victoria College and of the Faculty in which I am registered, and to any amendments thereto which may be made while I am a student of the College, and I promise to observe the same."

In the information furnished for the College records, students are requested to state what churches they propose to make their place of worship. This information is available for any of the city churches desiring it.

Students registering for the first time must present the certificates which constitute their qualifications for admission to the course of study for which they wish to register.

A student desiring to make a change in the course for which he has registered must apply to the Registrar on the proper form for a "change of course." Except in special circumstances, no change will be allowed after October 7th. If the application is

approved by the Departments concerned, the Registrar will give the necessary notification.

A student who at any time wishes to discontinue a subject must give notice of his intention on a form to be obtained at the Registrar's Office.

ATTENDANCE

Students are required to attend at least seven-eighths of the lectures in each course that they take. Admission to a lecture or laboratory and credit for attendance may be refused by the Instructor for lateness, misconduct, inattention or neglect of study. Absence consequent on illness or domestic affliction may be excused only by the Principal, and medical certificates or other evidence must be presented immediately to the Registrar on return to College work. In cases of deficient attendance students may (with the sanction of the Principal and Head of the Department concerned) be excluded from the Christmas or the final examination in a course; but unless the unexcused absences exceed one-fourth of the total number of lectures in a course, such students may sit for supplemental examinations.

The College week is from Monday to Saturday inclusive, and lectures and laboratories may extend from 8 a.m. to 6 p.m.

FEEES

All fees are payable at the office of the Registrar, Victoria College. Cheques should be made to the order of the Registrar, Victoria College. Arrangements for paying fees in instalments are described in the next section. The fees quoted below do not include cost of text-books, personal expenses, etc.

For students doing 15 units (complete course) or more during the session:

Tuition Fees.....	\$100.00
Equipment Fee.....	2.00
Alma Mater and Locker Fees.....	6.00
Total.....	\$108.00

For students doing less than 15 units during the session (partial students):

Registration Fee (required only of partial students registering at Victoria College for the first time).....	\$20.00
Fee for each 3-unit course.....	20.00
Equipment Fee	2.00
Alma Mater and Locker Fees.....	6.00

Special and Night Class Students:

The same as for partial students, except that the equipment fee, Alma Mater and locker fees are not collected.

The Alma Mater fee is turned over to the Students' Council for the support of student organizations, athletics, and social functions. The Equipment Fee covers damages to buildings and furniture, use of special materials in the laboratories, replacement of library books, etc. Should the sum collected be insufficient, a second amount may be collected from each student.

PAYMENT OF FEES

Fees may be paid by either of the plans described below. Parents or guardians of students are required to state at the time of registration which plan they propose to adopt. In the event of default of payment at any time under either plan, students will be excluded from classes, and will not be re-admitted until all outstanding fees have been met.

First Plan: Fees payable in two instalments. The first, consisting of one-half the tuition fee plus equipment fee, Alma Mater fee and locker fee, must be paid not later than Monday, October 9th, 1939. The second, consisting of the balance of the tuition fee, must be paid not later than January 15th, 1940. For students taking a full course (15 units) the payments under this plan are \$58.00 and \$50.00 respectively.

Second Plan: Fees payable in one cash payment and five equal monthly payments. The cash payment,

consisting of one-sixth the tuition fee together with the Alma Mater fee, locker fee and equipment fee, must be paid by October 2nd, 1939. The balance of the tuition fee must be paid in equal instalments at the end of October, November, January, February and March respectively. For students taking a full course (15 units) the first payment under this plan is \$23.00, and each of the other payments is \$17.00.

SPECIAL FEES

Special Examinations (per paper).....	\$7.50
Regular Supplemental Examinations (per paper)	5.00
Re-reading of Examinations (per paper).....	2.00
These fees must be paid in advance.	

SCHOLARSHIPS AND PRIZES

First Year Students in Applied Science and Second Year Students in Arts and Science who are proceeding to a course of study in the University of British Columbia should note the page of the Calendar of that Institution concerning the Khaki University and Young Men's Christian Association Memorial Fund Bursaries.

**ROYAL INSTITUTION AND FRANK EATON
MEMORIAL SCHOLARSHIP**— Fifty dollars (\$50) awarded to the student taking the highest standing in the English of the second year.

AGNES DEANS CAMERON SCHOLARSHIP—
Given by Mrs. F. V. Longstaff. Fifty dollars (\$50) awarded to the first year student taking the highest standing in English and continuing the course in the second year at Victoria College.

ALLIANCE FRANCAISE—Prize of fifty dollars (\$50) to the student in the second year who has made the most progress in French and who intends to continue university work in this subject.

DAVID SPENCER, LTD.—One hundred dollars (\$100) awarded to the first year student taking the highest standing in Mathematics and continuing the course in the second year at Victoria College.

KIWANIS SCHOLARSHIP, 1939-40—One hundred dollars (\$100) awarded to a man student completing the first year and entering the second year at Victoria College. Selection of the recipient to be made by the Kiwanis Club of Victoria in conference with the College Faculty.

QUITA NICHOL BURSARIES — Two hundred dollars (\$200) donated annually to Victoria College by Mrs. W. C. Nichol, to provide scholarships in first and second year French. Two prizes of \$100 and \$50 respectively will be awarded in the first year, and one prize of \$50 in the second year. These prizes are normally awarded on merit, but, if necessary, special circumstances may be taken into consideration. Students must continue at Victoria College for their second year or the University of British Columbia for their third year.

UNIVERSITY WOMEN'S CLUB — One hundred dollars (\$100) awarded to the woman student taking the highest standing in her first year, and continuing her course in the second year at Victoria College.

THE KATHLEEN AGNEW SCHOLARSHIP—
One hundred dollars (\$100) donated for the purpose of stimulating the study of the History of Canada.

The following scholarships are open to Matriculation students intending to proceed to Victoria College:

CECILIA GREEN MEMORIAL SCHOLARSHIP
—One hundred dollars (\$100) awarded to the student of Victoria High School who ranks first in general proficiency in the Junior Matriculation Examination of the University of British Columbia held in June. This scholarship is awarded only to a student in attendance at Victoria College or other institution approved by a special committee.

VICTORIA WOMEN'S CANADIAN CLUB SCHOLARSHIPS — (1) One hundred dollars (\$100) awarded to the female student resident in Victoria District (Vancouver Island south of the Malahat) making the highest standing in the Junior Matriculation Examinations, held in June, and registering for a full first year course in Victoria College the following September. (2) One hundred dollars (\$100) awarded to the male student resident in Victoria District making the highest standing in the same examinations and under the same conditions. Should the student, in either case, be awarded a scholarship from any other source, the Club Scholarship shall then revert to the student having the next highest standing.

ROYAL INSTITUTION JUNIOR MATRICULATION SCHOLARSHIP FOR VICTORIA DISTRICT—One hundred and seventy-five dollars (\$175) awarded for general proficiency in the Junior Matriculation Examinations. The winner must attend either the University of British Columbia or Victoria College.

I.—COURSES LEADING TO DEGREE OF B.A.

(Four-year course, two years of which may be taken at Victoria College)

First and Second Years

1. The work of the first two years consists of 30 units, 15 of which must be taken in each year.

Each student must take:

	Units
(a) English 1 in the First Year and English 2 in the Second Year.....	6
(b) The first two courses in a language offered for Matriculation, one course in each year....	6

(c) Mathematics 1, in the First Year.....	3
(d) Economics 1 or 2, or History 1 or 2 or 3, or Psychology 1, or *Social Science 1.....	3
(e) Biology 1, or Chemistry A, or Chemistry 1, or Physics A, or Physics 1.....	3
(f) Three courses, not already chosen, selected from the following: Biology 1, Chemistry A, Chemistry 1, Chemistry 2, Economics 1, Economics 2, Economics 10, French 1, French 2, Greek A, Greek 2, History 1, His- tory 2, History 3, Beginners' Latin, Latin 1, Latin 2, Mathematics 2, Mathematics 3, Psychology 1, Physics A, Physics 1, Social Science 1, Zoology 1.....	9

Note.—Psychology 1 is not open to First Year students. History 2 is open to First Year students only if they are preparing for entrance to Normal School. Zoology 1, Economics 1 and Economics 10 are not open to First Year students.

2. Students who have not matriculated in Latin may fulfil the language requirements for the degree by taking Beginners' Latin, to be followed by Latin 1 and Latin 2. They must complete 63 units for graduation. The extra three units may be taken in any year.

3. Greek A (which may be taken by students having no previous knowledge of Greek), followed by Greek 2, will be accepted as satisfying the Language requirements in the case of students who have matriculated in Latin.

4. No student in his first year may elect more than one beginners' course in a language, and no beginners' course in a language will count towards a degree unless followed by a second year's work in that language.

5. Except in the case of beginners' courses, no course in a language may be taken by a student who has not offered that language at Matriculation. A begin-

* Not offered in 1939-40.

ners' course in a language may not be taken for credit by a student who has obtained credit for that language at Matriculation.

6. A student taking three languages in the first two years (18 units) may defer the course selected under (c) above until the Third or Fourth Year. A student taking four science courses (12 units) may defer the course selected under (d) to the Third or Fourth Year.

7. Students who intend to teach High School work, and consequently will be obliged to take the Teacher Training Course after graduating, are advised to take Psychology 1 in the Second Year. Psychology 1 must be taken as an undergraduate course by such students.

II.

COURSES LEADING TO THE DEGREE OF B.A.Sc. (APPLIED SCIENCE)

(Five-year course, one year of which may be taken at
Victoria College)

First Year

Students register in Arts and Science and take the following courses: English 1, Mathematics 1, Chemistry 1, Physics 1, French 1 or Latin 1.

For admission to the Second Year of Applied Science the passing grade is 60 per cent. for Physics, Chemistry and Mathematics, and 50 per cent. in English and in French or Latin.

No student with any supplemental outstanding will be admitted to the Second Year of Applied Science.

The number of students who may enter the Second Year is limited to 120. Applications for admission to the Second Year must be made to the Registrar of the University on or before September 1st. Applicants who are accepted will be notified and must make application for registration at once or lose their priority of acceptance. Later applications will be considered as far as vacancies are available.

Candidates who expect to complete the requisite entrance standing through University or Senior Matriculation supplemental examinations may apply for admission as specified above, and their applications will be considered subject to the results of these examinations.

III.

COURSES LEADING TO THE DEGREE OF B.Com. (COMMERCE)

(Four-year course, two years of which may be taken at
Victoria College)

First and Second Years

Students must take:

First Year—

- (a) English 1.
- (b) The first course in a language offered for Matriculation (Latin, French or Greek).
- (c) Mathematics 1.
- (d) Economics 2.
- (e) One course selected from the following:
Biology 1, Chemistry A, Chemistry 1, Physics A, Physics 1.

Second Year—

- (a) English 2.
- (b) A continuation course in the language taken in the First Year.
- (c) Mathematics 2 or 3.
- (d) Economics 1.
- (e) Economics 10.

A clear academic record at the end of the Second Year is required of all students proceeding to their Third Year.

In view of the importance which rightly attaches to the capacity for adequate and clear expression in writing, regulation 14, on page 25 of the Calendar, will

be rigidly enforced at the end of the second year, and reasonable legibility in handwriting will be insisted on.

Students taking Commerce are advised to obtain as much business experience during the summer vacation as possible.

DOUBLE COURSE FOR THE DEGREES OF B.A. AND B.A.Sc.

(Six-year course, two years of which may be taken at
Victoria College)

The requirements for the first and second years are as set forth for the first and second years of Arts and Science except as follows:

1. Physics 1 and Chemistry 1 must be taken. The passing grade for each of these subjects is 60 per cent. (The passing grade for Mathematics 1, English 1, and French 1 or Latin 1 is the same as that demanded for admission to the Second Year of Applied Science, page 15.) Students are recommended to take Mathematics 2b (Calculus).
2. Chemistry 2 and Mathematics 2a may not be taken. These are covered later in Applied Science.
3. Economics 1 may not be taken by those who plan to enter Chemistry, Chemical Engineering or Civil Engineering.

COURSES IN NURSING AND HEALTH

1. The Combined Undergraduate Course (University and Hospital) is a course leading to the Degree of B.A.Sc. (Nursing) and the Diploma in Nursing of an associated hospital.

2. The Double Course in Arts and Science and Nursing and Health is a six-year course, leading to the Degrees of B.A. and B.A.Sc. (Nursing).

One year of either of the above courses may be taken in Arts and Science at Victoria College. The requirements for this year's work are as follows:

English 1.
French 1 or Latin 1.
Mathematics 1.
Chemistry 1.
Biology 1.

The number of students who will be admitted to the Second Year in Nursing and Health at the University is limited to 20.

Upon the completion of the First Year in Arts and Science (Nursing Option) candidates should apply to the Registrar of the University, on or before August 1st, for admission to the Second Year in Nursing and Health.

Applications must be accompanied by a certificate showing that the applicant has satisfied the entrance requirements of an associated Hospital School of Nursing. Applicants must also, in the opinion of the Department of Nursing, be personally fitted for the profession; consequently, they should communicate with Miss Mabel F. Gray, R.N., Department of Nursing, University of British Columbia, with regard to their intention of entering the nursing course.

Applicants who are accepted by the Department of Nursing will be notified, and must make application for registration at once or lose their priority of acceptance. Later applications will be considered as far as vacancies are available.

No student with defective standing will be admitted to the Second Year in Nursing.

Candidates who expect to complete the requisite entrance standing through University or Senior Matriculation supplemental examinations must apply for admission as specified, and their admission will be considered subject to the results of these examinations.

COURSE LEADING TO THE SOCIAL SERVICE DIPLOMA

This is a three-year course, one year of which may be taken in Arts and Science at Victoria College. The requirements of the year are as follows:

English 1.

French 1 or Latin 1.

Mathematics 1.

Economics 1.

Biology 1 (or, by permission, Chemistry A,
Chemistry 1, Physics A or Physics 1.

COURSE LEADING TO THE DEGREE OF B.S.A. (BACHELOR OF SCIENCE IN AGRICULTURE)

This is a four-year course. The required subjects in the first and second years in Agriculture at the University are:

(1) Agriculture 1 and 2.

(2) English 1 and 2.

(3) Mathematics 1.

(4) Chemistry 1.

(5) Biology 1.

(6) In addition to the above, elective courses to make a total of 30 units from those offered in the first and second years of Arts and Science.

Of the above, the only work not offered at Victoria College is Agriculture 1 and 2. By carefully selecting 30 units of work in the first two years of Arts and Science at the College, students may proceed to the University and complete the work for the B.S.A. degree in two years.

COURSES LEADING TO FORESTRY

In addition to the five-year course in Forest Engineering, offered in the Faculty of Applied Science, and leading to the degree of B.A.Sc., the University of British Columbia now offers, in the Faculty of Arts and Science, two courses by which the degree of B.A. (Bachelor of Arts) and B.S.F. (Bachelor of Science in Forestry) may be obtained in five years, also a course by which the degree of B.Com. (Bachelor of Commerce) and B.S.F. may be similarly obtained.

Students desiring to enter Forestry work through either of the above avenues of approach may complete their first year in the Faculty of Arts and Science at this College.

Students intending to pursue courses in Medicine, Home Economics, Law, Physical Education, etc., should obtain particulars of the requirements for these courses from the University or Institution at which they plan later to study.

NIGHT CLASSES

Special Night Classes in the First and Second Years of Arts are arranged at the beginning of each session. These classes are not open to students registered in the regular day classes. No student may take more than one Night Class Course (3 units) each session. Night Class students are subject to the same regulations and examinations as day students.

The classes to be offered in 1939-40 will be announced at the beginning of the session. Students interested should write for particulars about September 15, 1939. The courses offered are chosen from the regular curriculum.

EXAMINATIONS AND ADVANCEMENT

1. Examinations in all subjects, obligatory for all students, are held in December and in April. Applications for special consideration on account of illness or domestic affliction must be submitted to the Registrar

not later than two days after the close of the examination period. In cases where illness is the plea for absence from examinations, a medical certificate must be presented to the Registrar's office.

2. The passing mark will be 50 per cent. in each subject. The regulations governing admission to the Second Year of Applied Science are outlined on page 15, under the heading, "Courses Leading to the Degree of B.A.Sc. (Applied Science)." In any course which involves both laboratory work and written examinations, students may be debarred from examinations if they fail to present satisfactory results in laboratory work, and they will be required to pass in both parts of the course.

3. Successful candidates will be graded as follows: First Class, an average of 80 per cent. or over; Second Class, 65 to 80 per cent.; Passed, 50 to 65 per cent.

4. A student who makes 50 per cent. of the total required for a full year's work (at least 15 units chosen in conformity with calendar regulations), but who fails in an individual subject, will be granted a supplemental examination in that subject if he has not fallen below 30 per cent. in that subject. If his mark is below 30 per cent. a supplemental examination will not be granted. Notice will be sent to all students who are entitled to supplemental examinations.

A student who makes less than 50 per cent. of the total required for a full year's work (15 units) will not be allowed a supplemental examination.

A partial student is not entitled to a supplemental examination.

5. A request for the re-reading of an answer paper must be forwarded to the Registrar within two weeks after the results of the examinations are announced. Each applicant must state clearly his reasons for making such a request in view of the fact that the paper of a candidate who makes less than a passing mark in a subject is read at least a second time before results are tabulated and announced. A re-reading of

an examination paper will be granted only with the consent of the Head of the Department concerned. The fee for re-reading a paper is \$2.00.

6. Supplemental Examinations will be held in September. To pass a supplemental examination a candidate must obtain at least 50 per cent. If a student fails in the supplemental examination in a course, no further supplemental will be granted to that student in respect of that course. If the course is a required one the student must repeat that course; if it is optional, he must repeat it or take an alternative.

A candidate with a supplemental examination outstanding in any subject which is on the Summer Session curriculum of the University, may clear his record by attending the Summer Session course in the subject and passing the required examinations.

7. Applications for supplemental examinations, accompanied by the necessary fees (see Schedule of Fees) must be in the hands of the Registrar at least two weeks before the date set for the examinations.

8. No student may enter a higher year with standing defective in respect of more than 3 units (see regulations in regard to advancement to Third Year Commerce, page 16, and in reference to Second Year Applied Science, page 15). No student who has failures or supplementals outstanding in more than 3 units, or who has any failure or supplemental outstanding for more than a year of registered attendance, shall be allowed to register for more than 15 units of work, these units to include either the subject (or subjects) in which he is conditioned or permissible substitutes.

9. A student may not continue in a later year any subject in which he has a supplemental examination outstanding from an earlier year, except in the case of compulsory subjects in the Second Year.

10. A student who is not allowed to proceed to a higher year may not register as a partial student in

respect of the subjects of that higher year. But a student who is required to repeat his year will be exempt from attending lectures and passing examinations in subjects in which he has already made at least 50 per cent. In this case he may take, in addition to the subjects of the year which he is repeating, certain subjects of the following year.

11. A student who fails twice in the work of the same year may, upon the recommendation of the Faculty, be required by the Senate to withdraw from the College.

12. Any student whose academic record, as determined by the tests and examinations of the first term of the First or Second Year, is found to be unsatisfactory, may, upon the recommendation of the Faculty, be required by the Senate to discontinue attendance at the College for the remainder of the session. Such a student will not be re-admitted to the College as long as any supplemental examinations are outstanding.

13. Certificates of students' standing are mailed only at the close of the April Examinations, but, on request to the Registrar, parents may obtain statements at any time during the Academic Year.

14. Term essays and examination papers will be refused a passing mark if they are noticeably deficient in English, and, in this event, students will be required to pass a special examination in English, to be set by the Department of English.

GREEK

Greek A—Pharr, **Homeric Greek, A Book for Beginners**, Heath; Robertson and Robertson, **The Story of Greece and Rome**, Chapters 1-32, Dent.

Four hours a week. Three units.

VICTO

COLLEGE

Greek 2—Homer, *Iliad* 1, ll. 250-611, Pharr, Heath; Plato, **Apology**, with vocabulary, A. M. Adam, Cambridge Press; North and Hillard, **Greek Prose Composition**, Longmans, Green; Norwood, **Writers of Greece**, Oxford Press.

Four hours a week. Three units.

LATIN

Beginners' Latin—This course is intended for students who have no previous knowledge of Latin. It is open for credit only to students who have not offered Latin for credit in Matriculation. The aims of the course include (1) a mastery of what is fundamental in Latin Grammar and Composition and the learning of a basic Latin vocabulary; and (2) a continuous correlation with English—in a study of the origins and meanings of English words derived from Latin and of the structure of the English sentence. Frequent practice will be given in translating from Latin to English selected passages of a progressive nature dealing with Rome and the Romans. During the latter part of the year selections from Latin poetry will be read.

Texts: Collar and Daniell, **First Year Latin**, revised by Jenkins, Ginn; Neville, Joliffe, Dale and Breslove, **A Book of Latin Poetry**, Macmillan.

Four hours a week. Three units.

Latin 1—Bouney and Niddrie, **Latin Prose and Poetry**, Ginn; Marchant and Watson, **Latin Prose Composition**, Bell; Robertson and Robertson, **The Story of Greece and Rome**, Chapters 1-32, Dent.

Three hours a week. Three units.

Latin 2—Cicero, **Catilinarian Orations**, with vocabulary, Upcott, Oxford Press; Virgil, **Aeneid**, Book 6, Page, Macmillan; Pilsbury, **Latin Prose Composition**, Lessons 25-38, Oxford Press; Robertson and Robertson, **The Story of Greece and Rome**, Chapters 33-54, Dent; Allen and Greenough, **New Latin Grammar**, Ginn.

Three hours a week. Three units.

DEPARTMENT OF ECONOMICS

Assistant Professor: E. Stanley Farr

Note.—Economics 1 is the prerequisite for all other courses in the Department except Economics 2 and Economics 10.

1. **Principles of Economics.**—An introductory study of general economic theory, including a survey of the principles of value, prices, money and banking, international trade, tariffs, monopoly, taxation, labour and wages, socialism, the control of railways and trusts, etc.

Text-books: Diebler, **Principles of Economics**, McGraw-Hill; Graver and Hansen, **Principles of Economics** (1937), Ginn. References: Slichter, **Modern Economic Society**, Holt; **Canada Year Book** 1938; assigned readings.

Three hours a week. Three units.

2. **Economic History.**—A survey of the factors of social and economic significance in the development of society from early times, leading to a consideration of the more important phases of European organization, with special reference to Great Britain and in particular to the village community, feudal organization, governmental control of industry and trade, the domestic system, the industrial revolution, and agricultural progress, including a survey of economic development on the North American continent during the nineteenth century.

Text-book: Southgate, **English Economic History**, Dent.

Readings: Peake, **The English Village**, Benn; Knight, Barnes, and Flugel, **Economic History of Europe**, Houghton Mifflin; Day, **History of Commerce**, Longmans; Knowles, **Industrial and Commercial Revolutions**, Dutton; Fay, **Great Britain from Adam Smith to the Present Day**, Longmans; Hobson, **Evolution of Modern Capitalism**, Scott; Ashley, **Economic Organization of England**, Longmans; Man-

TOUX, *The Industrial Revolution in the Eighteenth Century*, Cape; ERULE, *English Farming Past and Present*, Longmans; FAULKNER, *American Economic History*, Harpers; INNIS, *Economic History of Canada*, Ryerson; BLAND, BROWN and TAWNEY, *English Economic History Select Documents*, Bell.

Three hours a week. Three units.

10. **Economic Geography.**—A general survey of the principal resources and industries of the world, with emphasis on those entering into international trade, leading to a study of the principles and problems of transportation by sea.

Text-books: MacFarlane, *Economic Geography*, latest edition, Pitman; Whitbeck and Finch, *Economic Geography*, McGraw-Hill; Chisholm, *Handbook of Commercial Geography*, Longmans.

Assigned readings: Leith, *World Minerals and World Politics*, McGraw-Hill; Holland, *Mineral Sanctions as an Aid to International Security*, Oliver & Boyd; Brookings Institute Lectures, *Mineral Economics*, McGraw-Hill; A.I.M.E. Essays, edited by Mathewson, *Modern Uses of Non-ferrous Metals*, Maple Press; Crerar, *Future of Canadian Mining*, King's Printer.

Three hours a week. Three units.

Social Science 1—This course is accepted, in lieu of Economics 1, as a prerequisite for Sociology 1 or Government 1.

It includes a survey of man's relation to his environment and to his social heritage designed to serve as an introduction to more advanced courses in the departments of Economics and History. It will begin with a description of institutional origins and the rise and fall of civilization, and will then deal with political and economic institutions of the world today. Readings to be assigned.

This course is offered with the collaboration of the Department of History.

Three hours a week. Three units.

Not given in 1939-40

The purchase of text-books for the various courses in Economics is optional, as copies are available in the College Library. Students are advised not to purchase books without first consulting the Instructor.

DEPARTMENT OF ENGLISH

Assistant Professor: H. Ruth Humphrey

Assistant Professor: William Robbins

1. (a) Literature—Elementary study of a number of literary forms to be chosen from the short story, the play, the novel, the essay, the simpler sorts of poetry.

Euripides, **Electra**, in Gilbert Murray's paraphrase.

Shakespeare, **Hamlet**.

Sheridan, **The School for Scandal**, Everyman.

Bernard Shaw, **Saint Joan**, Constable (Cloth Edition).

Monro, **Twentieth Century Poetry**, Chatto and Windus.

Text to be selected for "Short Stories."

Two hours a week.

- (b) Composition—Elementary forms and principles of composition.

Biaggini, E. G., **The Reading and Writing of English**, Hutchinson (England).

Two hours a week.

Three units.

The work in composition consists of (1) themes and class exercises, and (2) of written examinations. Students will be required to make a passing mark in each of these two parts of the work.

2. Literature—

Studies in the history of English Literature.

Lectures and texts illustrative of the chief authors and movements from Tottel's Miscellany to Shelley.

Neilson and Thorndike, **A History of English Literature**, Macmillan.

Heath's **Readings in the Literature of England**,
Ed. Peete and Cross.

Three hours a week. Three units.

DEPARTMENT OF FRENCH

Assistant Professor: W. Harry Hickman

1. **French Short Stories**, Nelson; Molière, **Le Bourgeois Gentilhomme**, Didier.

Les Cent Meilleurs Poèmes Liriques, Gowans and Gray.

Mills, **Free Composition in French**, Nelson.

For independent reading: Constantin-Weyer,
Cavelier de la Salle, Ferenczi.

For reference: Berthon, **French Grammar**, Dent.

Three hours a week. Three units.

Summer Reading

Upon entering the Second Year the student must satisfy the Instructor that he has read the following:

Louis Hemon, **Marie Chapdelaine**, Fayard.

2. Balzac, **Eugénie Grandet**, Oxford University Press.
Anatole France, **Extraits**, Nelson.

Independent reading to include: Balzac, **Le Père Goriot**, Nelson; A. de Chateaubriand, **Monsieur de Lourdines**, Ferenczi; and an author listed under Summer Readings.

Conversation in French and composition in French,
based on the above.

There will be oral tests.

Three hours a week. Three units.

For Summer Reading for those proceeding to Third Year French, see Calendar of the University of British Columbia.

DEPARTMENT OF HISTORY

Assistant Professor: E. Stanley Farr

Instructor: Sydney G. Pettit

1. **Main Currents in Twentieth-Century History.**—

This course completes the study of World History pursued in the high schools and offers a background for contemporary World problems. The following topics are discussed: The Great Powers at the Opening of the Century, Alliance and Entente, The Coming of the World War, The World War, The Peace Treaties, The New Map of Europe, Reparations and War Debts, Security and Disarmament, The League of Nations, The Russian Revolution and the U.S.S.R., Italy and Fascism, Germany from Empire to Third Reich, Post-War Britain and Democratic France, The New Balkans, The Little Entente and Poland, Nationalism and Imperialism in the Far East, The United States and World Peace.

Text-books: Bensus, **Europe Since 1914**, or Langsam, **The World Since 1914**; Cole, **The Intelligent Man's Review of Europe Today**; Schmitt, **The Triple Alliance and Triple Entente**; J. F. Horrabin, **Atlas of Current Events**.

Essays will be assigned throughout the Session.

Three hours a week. Three units.

2. **History of Canada** (offered in 1938-39 and alternate years).—

Geographical Factors; Exploration and Early Settlements; the French Regime; Constitutional Development, 1759-1867; Economic and Social Progress to Confederation; Development of the Dominion of Canada since 1867; Canada in the Commonwealth; Canada in the World.

Text-books: Wittke, **A History of Canada**; Trotter, **Canadian History, a Syllabus**; Siegfried, **Canada**.

Essays will be assigned throughout the Session.

Three hours a week. Three units.

3. Canada West of the Great Lakes (offered in 1939-40 and alternate years).—

The Place of Western Canada in Canadian Development; Anglo-French Rivalry in the West; Struggle for Supremacy between the Hudson's Bay Company and the North-West Company; the Selkirk Settlement; Discovery and Exploration of the Pacific Coast; the Maritime Fur Trade; the North-West Company in British Columbia; the Western Department of the Hudson's Bay Company, 1821-70; Rivalries in Old Oregon; the Colonial Period of British Columbia; Confederation; the Riel Rebellion; the Rise of the New West; the Agrarian Movement on the Prairies; Development of the Province of British Columbia.

Text-books: Wittke, **A History of Canada**; Howay, **British Columbia, The Making of a Province**; Sage, **Sir James Douglas and British Columbia**; England, **The Colonization of Western Canada**.

Essays will be assigned throughout the Session.

Three hours a week. Three units.

As copies of the text-books for the various courses in History are available in the College Library, purchase of such books by the student is optional. It is inadvisable for students to purchase text-books without first consulting the Instructor.

DEPARTMENT OF MATHEMATICS

Assistant Professor: Robert T. D. Wallace

1. Introductory Mathematics—An elementary course in Algebra, including proportion, variation, logarithms, progressions, theory of quadratic equations, permutations, combinations, annuities, binomial theorem; Analytical Geometry, including the study of the straight line and circle, with an introductory study of the parabola, ellipse and hyperbola; elementary Trigonometry.

Text-books: Brink, **Algebra, a College Course**, Appleton-Century; Brink, **Plane Trigonometry** (without tables), Appleton-Century; Nowlan, **Analytical Geometry**, McGraw-Hill; Wentworth and Hill, **Five Place Logarithmic and Trigonometric Tables**, Ginn.

Four hours a week. Three units.

2. (a) Algebra—The binomial theorem, complex numbers, induction, remainder theorem, Horner's method, exponential, logarithmic and other series, undetermined coefficients, partial fractions, convergence and divergence, determinants.

Text-book: Nowlan, **College Algebra**.

Two hours a week.

- (b) Calculus—An introductory course in differential and integral calculus, with various applications.

Text-book: Woods and Bailey, **Calculus**.

One hour a week.

Three units.

3. The Mathematical Theory of Investments.—This course deals with the exponential law, the power law, curve fitting, the theory of interest, annuities, debentures, valuation of bonds, sinking funds, depreciation, probability and its application to life insurance.

Hart, **Mathematics of Investment** (with tables), revised edition, Heath.

For reference: Bauer, **Mathematics Preparatory to Statistics and Finance**, Macmillan.

Three hours a week. Three units.

DEPARTMENT OF PSYCHOLOGY

Instructor: Sydney G. Pettit.

Psychology 1—Elementary Psychology.—Psychology as a science; the nervous system: sensation; perception; emotion; motivation; attention; learn-

ing; thinking; intelligence; personality. This course is introductory to courses in advanced psychology. Not open to First Year students.

Text-book: Warren and Carmichael, **Elements of Human Psychology**, Houghton-Mifflin.

Prerequisite.—Beginning with the academic year 1940-41 Biology 1 or Physics A or 1 will be prerequisite.

Three hours a week. Three units.

DEPARTMENT OF BIOLOGY AND ZOOLOGY

Assistant Professor: Jeffree A. Cunningham

Assistant: Ruth E. Fields.

Biology 1—Introductory Biology.—The course is introductory to more advanced work in Botany or Zoology; also to courses closely related to Biological Science, such as Agriculture, Forestry and Medicine.

The fundamental principles of Biology; the interrelationship of plants and animals; life processes; the cell and division of labour; life-histories; relation to environment.

A list of reference books is supplied.

Two lectures and three hours laboratory per week.

Three units.

Zoology 1—General Morphology.—General morphology of animals; comparative anatomy; relationships of animal groups; comparative life-histories.

A list of references is supplied.

Prerequisite: Biology 1.

Two lectures and three hours laboratory per week.

Three units.

DEPARTMENT OF PHYSICS AND CHEMISTRY

Associate Professor: Percy H. Elliott

Instructor: Edward J. Savannah

Physics A—Introduction to Physics.—A course of demonstration lectures in non-mathematical language presenting the fundamental principles of physics so that they can be understood by students who have had no previous special training in the subject. The lectures deal with the principles of mechanics, properties of matter, heat, light, sound and electricity and are supplemented by practical work in the laboratory. The chief aim of the course is to give the minimum acquaintance with physical science requisite for a liberal education to those whose studies will be mainly literary. Students must reach the required standing in both theoretical and practical work. Open only to students who have not matriculated in physics.

Text-book: Millikan, Gale and Edwards, **A First Course in Physics for Colleges**, Ginn.

Three lectures and two hours laboratory per week.

Three units.

Physics I—Elementary Physics.—A study of general college physics suitable for those students who have obtained credit for Junior Matriculation Physics or its equivalent. The course covers the fundamental principles of mechanics, properties of matter, heat, light, sound, electricity and some of the more recent developments in physics in a more quantitative way than Physics A.

Text-book: Stewart, **Physics, A Text-book for Colleges**, Ginn.

References: Watson, **A Text-book of Physics**, Longmans; Kaye and Laby, **Physics and Chemical Constants**, Longmans.

Prerequisite: Junior Matriculation Physics or Physics A.

Three lectures and two hours laboratory per week.

Three units.

Chemistry A—This course will give a general survey of the field of chemistry for students not intending to specialize in any of the sciences. Laboratory experiments designed to give an insight into scientific methods will be performed.

This course will not be accepted as fulfilling the prerequisite for Chemistry 2, or any subsequent Chemistry course.

References: Deming, **Introductory College Chemistry**, Wiley; McPherson and Henderson, **An Elementary Study of Chemistry**, Ginn.

Two lectures and three hours laboratory per week.
Three units.

Chemistry 1—General Chemistry.—This course comprises a general survey of the whole field of chemistry, and is designed on the one hand to provide a thorough groundwork for further study in the sciences and on the other to give an insight into the methods of chemical investigation, the fundamental theories, and some important applications such as are suitable to the needs of a cultural education. Students must reach the required standard in both lecture and laboratory work.

Text-books: **Smith's College Chemistry**, revised by Kendall, 1935 edition, Century; for the laboratory, Deming, **A Laboratory Manual of College Chemistry**, Wiley.

Three lectures and three hours laboratory per week.
Three units.

Chemistry 2—Qualitative and Quantitative Analysis.

(a) Qualitative Analysis.—A study of the chemical reactions of the common metallic and acid radicals, together with the theoretical considerations involved in these reactions.

Text: A. A. Noyes, **Qualitative Analysis**, Macmillan.

References: Miller, **The Elementary Theory of Qualitative Analysis**, The Century Co.; Hammett, **Solutions of Electrolydes**, McGraw-Hill.

- (b) **Quantitative Analysis**.—This course embraces the more important methods of gravimetric and volumetric analysis.

Text: Willard and Furman, **Quantitative Analysis**, Van Nostrand.

Prerequisite—Chemistry 1. Course (b) must be preceded by Course (a).

One lecture and six hours laboratory per week.
Three units.

TIME TABLE
Supplemental Examinations
September, 1939

Tuesday, September 5th—

9 a.m.—Biology 1; History 2.

1 p.m.—English 1a; English 2.

Wednesday, September 6th—

9 a.m.—Latin 1; Latin 2.

1 p.m.—Chemistry 1; Chemistry 2; History 1.

Thursday, September 7th—

9 a.m.—Physics 1; Physics 2.

1 p.m.—Beginners' Latin.

Friday, September 8th—

9 a.m.—French 1; French 2.

1 p.m.—Mathematics 1; Mathematics 2a; Greek A;
Greek 2.

Saturday, September 9th—

9 a.m.—English 1b; Economics 10.

1 p.m.—Zoology 1.

Monday, September 11th—

9 a.m.—Mathematics 2b; Mathematics 3.

1 p.m.—Economics 1; Psychology 1.

Tuesday, September 12th—

9 a.m.—Economics 2.

N.B.—In case of conflicts, special arrangements will be made.

SCHOLARSHIP WINNERS

1937-38

Royal Institution Junior Matriculation Scholarship for the
Province of British Columbia - Robert M. Lane

Royal Institution Junior Matriculation Scholarship for
Victoria District - - - H. Keith Ralston

Victoria Women's Canadian Club Scholarships
(from Matriculation)—

(1) Marian Robinson.

(2) Harry M. Evans and Thomas Wainman-Wood (equal).

Cecilia Green Memorial Scholarship (from Matriculation)
- - - Ernest R. McMin

Royal Institution and Frank Eaton Memorial Scholarship
- - - Basil T. Richards

Agnes Deans Cameron Scholarship - A. M. Frances Wallace

Alliance Francaise Prize - - - M. Joyce Harvey

David Spencer, Limited, Scholarship - Donald H. Robson

Kiwanis Scholarship - - - John R. Meredith

Quita Nichol Bursaries—

(1) P. Rachel Adamson.

(2) David K. Cunningham.

(3) Alice M. Quayle.

University Women's Club Scholarship - Maureen E. Evans

Kathleen Agnew Scholarship - Bruce E. Mickleburgh

Special Prize for excellence in Biology 1 - David M. Boyd

Special Prize for excellence in Zoology 1 - Harold F. Dixon

Slide Rule Prizes for excellence in Science—

(1) H. Vincent Casson.

(2) Arthur Davies.

(3) Donald H. Robson.

Book Prize for excellence in Latin of the Second Year
- - - Basil T. Richards

Special Scholarship for excellence in Latin of the First Year
- - - Margaret Lowe

Special Scholarship for excellence in Beginners' Latin
- - - Maureen E. Evans

Leader of the First Year - - - Maureen E. Evans

Leader of the Second Year - - - Basil T. Richards

LIST OF STUDENTS IN ATTENDANCE

Session 1938-39

SECOND YEAR

* First Term only.

† Second Term only.

Adam, Joseph	Victoria
Aitkens, Lorna G.	Gordon Head, B. C.
Allan, John A.	Victoria
Bateman, John P. R.	Duncan, B. C.
