Jingsi Jin, Research Assistant, Institute for Resources, Environment and Sustainability, University of British Columbia

GUIDANCE BY:
Crystal Tremblay and Leila Harris, Institute for Resources, Environment and Sustainability, University of British Columbia

WINTER 2016

RESOURCE GUIDE

VIDEO COLLECTION OF TRAINING IN COMMUNITY BASED RESEARCH

This resource guide provides a summary of videos on key topic areas related to teaching and training materials for Community Based Research from around the world. This guide is the outcome of research conducted by the UNESCO Chair in Community-based Research SSHRC funded Building the Next Generation of Community-based Researchers ("The NextGen project") between 2014-2016. The Institute for Resources, Environment and Sustainability at the University of British Columbia is a partner on the NextGen project, bringing research expertise and knowledge specific to CBR and water governance. For more information please visit www.watergovernance.ca.

For more information on the NextGen project visit: http://unescochair-cbrsr.org/building-the-next-generation-of-community-based-researchers-the-nextgen-project/

The photos used in this guide are from CBR projects and training from members of the UNESCO core team between 2009-2016 from Africa, Latin America and Asia.

TABLE OF CONTENTS

BACKGROUND

Based at the University of Victoria (UVic) and the Society for Participatory Research in Asia (PRIA), the UNESCO Chair in Community-based Research and Social Responsibility in Higher Education is co-directed by Dr. Budd L Hall and Dr. Rajesh Tandon. The Chair supports North-South-South and South-South partnerships that build on and enhance the emerging consensus in knowledge democracy. It strengthens recent collaboration between the Higher Education section in UNESCO, the Global University Network for Innovation (GUNI), Global Alliance on Community University Engagement and other regional and global networks. It co-creates new knowledge through partnerships among universities (academics), communities (civil society) and government (policy makers) leading to: new capacities; new solutions to pressing problems related to sustainability, social and economic disparities, cultural exclusion, mistrust and conflict; and awareness among policy makers; enhanced scholarship of engagement; and of social responsibility in Higher Education.

Experiential learning and CBR field school in India in collaboration with the University of Victoria and the Society for Participatory Research in Asia (PRIA). August 2009.

1. SEARCH PROCESS

Between October 2015 and January 2016, the UNESCO Chair in Community-based Research and Social Responsibility in Higher Education conducted a systematic review of video material for training in Community-Based Research (CBR). The following video databases were used in this review: YouTube, Vimeo and Youku (a Chinese search engine). The search terms included six pedagogical themes in training of community-based researchers, including:

› **Ethics & Values**: Importance of understanding the connotations of ethics and values in a participatory research process. Exploration of ethical dilemmas and value conflicts as an integral part of building CBR capacities;

› **Multiple Modes of Enquiry**: Importance of training community-based researchers in multiple modes of research creation, a variety of sources of knowledge generation, as well as methods to capture knowledge;

› **Researcher as a Facilitator**: This theme includes a range of social and inter-personal skills of communication that are essential in any process of co-construction of knowledge, such as listening, respecting, enabling, sharing and synthesizing research findings;

› **Power & Partnerships**: Explorations of power dynamics and its relevance to partnerships as an integral part of the pedagogy of CBR. This theme emphasizes on enabling condition for the co-construction of knowledge and building relationships of mutual trust before embarking on a CBR project;

› **Balancing Classroom & Field**: This theme calls for a balance of classroom sessions and field activities in a way that the trainees participate as active stakeholders. Importance of the researchers engaging in the learning process as much as the trainees;

› **General**: Resources that do not fall under the aforementioned themes.

The first five pedagogical themes are the results of integrating the findings from three data collection tools of the NextGen project: (i) five systematic reviews on training, teaching and learning CBR; (ii) a global web based survey on capacity building in CBR; (iii) 21 institutional case studies of HEIs and/or CSOs providing training in CBR, followed up with a comparative analysis designed to identify good practices and contextual advice. Another "General" category includes training materials for CBR in general.

Based on our previous findings, CBR is a widely used umbrella term with a wide array of related terminology. Therefore, a few other search terms were used in addition to "community based research", including "action research", "participatory research", and "applied research". (Detailed search processes are recorded in the Appendix).

The first round of review was conducted as a general search through YouTube/Vimeo/Youku, for videos with specific terms in the title and/or description. Most of the results had high yields presented in their order of relevance to the search terms. Due to time constraints, only videos in the first 1-2 pages (20-40 results) were reviewed for selection, as they were the most relevant material to the search terms, according to the search engine.

The second round of review was conducted as a title search through YouTube, for videos with specific words only in the title. The search terms were modified slightly throughout the searches based on the results, as certain key words yielded too many, or too few items.

See below for a sample of search results for the general search and the title search:

Database/Source	Date	Search Field	Key Terms/Search String	Number of Results
YouTube	2015-10-28	General	action research empower	2220

2. SELECTION CRITERIA

Once the videos were identified, they were reviewed based on their relevance to training in CBR. Most video materials include a title, as well as a short written introduction of the presenter and content. The title of each video was reviewed at the beginning. If the title seemed relevant, the short written introduction, along with the first several minutes of the video was reviewed to determine its relevance. If the video still appeared to be a good resource for CBR training, the entire video was scanned for specific training/teaching/learning approaches, and the video was finally categorized into the six pedagogical themes.

Efforts were made to include diverse geographic locations. Most of the videos collected are about CBR in Canada and the USA. Among those videos, many of them involve CBR with minority groups (Indian, Chinese, First Nations communities, etc.). There are also a few resources for CBR in southern Africa (Ethiopia, Uganda, etc.) and Latin America (Mexico, Colombia, Chile, etc.). Asia (with the exception of India) and Europe are areas with the least video training material found. This may be due to the fact that searches were primarily conducted in English.

For each video that was selected, the following information was recorded: title, video type, presenter, organization, uploader, date, country, language, length, video resolution, number of views (at the time of review), keywords, and the link. A short description was attached regarding its content/training approaches as CBR training material.

Documents were ranked based on a few criteria, including its relevance to CBR training, whether it includes specific training aspects/approaches, its presentation style (e.g. informative, interactive, etc.), audio and visual clarity, etc. For example, a video may include valuable training techniques on CBR, but was not recorded with high visual or audio quality. The value of the video was evaluated based on the consideration of the criteria mentioned above.

Participatory Video training workshop in Accra, Ghana. March, 2015. A collaboration between the University of British Columbia and ISODEC, Ghana.

3. RESULTS

A selection of 68 videos were selected as video training materials for CBR, falling into six pedagogical themes. These pedagogical themes help to situate the video resources that demonstrate the different dimensions of training approach/aspect. It should be noted that many of the videos do not fit into just one theme, but rather overlap across several. For example, a video regarding techniques and skills to facilitate a community meeting/workshop also touches on how to empower the community and build up trusting relationships through the community meeting/workshop. See below the number of video material collected for each pedagogical theme.

The pedagogical theme with the most video material collected is Multiple Modes of Enquiry. There are many videos regarding methods and approaches for community-based research such as graphic facilitation, asset mapping, storytelling, photovoice, etc. There are also good resources for the general category that introduce the principles, benefits and challenges for CBR (or participatory research/action research/applied research) in general. The Ethics & Values theme also has a few collections of materials regarding common ethical issues involved in community-based research and studies. For the Researcher as a Facilitator theme, training resources regarding the role of facilitator, and specific facilitation/communication/knowledge-sharing skills are collected. For the Power & Partnerships theme, some project-based video material was collected that adopted the principle of empowering communities. Balancing Classroom & Field is the theme with the least video training material found.

General	17
Ethics & Values	14
Multiple modes of Enquiry	19
Researcher as a Facilitator	12
Power & Partnerships	13
Balancing Classroom & Field	9

4. LIMITATIONS

There are a number of limitations in this review process. Due to time constraints, YouTube was the main search engine for the video collection process. Most of the searches were conducted in English. There are a few videos in other languages with English subtitles in the collection. Due to language constraints, it was difficult to collect video material without English subtitles. Further, training video materials from small organizations or individuals may have been overlooked as a result of them not being posted online.

VIDEO BIBLIOGRAPHY

GENERAL

1. CBPR (community-based participatory research)

Description: The video material is a concise overview about community-based participatory research (CBPR), including what CBPR is, steps for conducting CBPR (form the research team; develop a research question; write a grant proposal; design the research methods; participant recruitment; data collection; data analysis and interpretation; research dissemination), and benefits and limitations of each step.

Keywords: CBPR (community-based participatory research)

Type: Informal lecture

Presenter: ChrisFlipp

Publication date: 14-01-29

Language: English

Length: 8:54

Number of views: 1838

Link: https://www.youtube.com/watch?v=AePC97aKOJA

2. Participatory Research

Description: This training material is about Participatory Research, and specifically Participatory Rural Appraisal, including paradigm shift from conventional to participatory research; definition, features, principles, steps and methods for Participatory Rural Appraisal.

Keywords: Participatory Research; Participatory Rural Appraisal

Type: Lecture

Presenter: Neera Agnimitra

Organization/Institution: CEC IUAC Campus

Publication date: 14-05-23

Country: India

Language: English

Length: 58:15

Number of views: 361

Link: https://www.youtube.com/watch?v=8cTwzXnJbtY&list=PLbASS1Ci bGoEG6f4MhDIcn8B-BVnyFv1a&index=93

3. Putting Community-Based Participatory Research into Practice

Description: This lecture includes an overview of CBPR and a specific example of adopting CBPR to examine cardiovascular health in Detroit. The lecture explains how CBPR engaged all partners in development and implementation of multi-level interventions to reduce racial, ethnic and socioeconomic disparities in health.

Keywords: Community-based participatory research

Type: Lecture

Presenter: Barbara A. Israel; Sherita Smith

Organization/Institution: University of Michigan School of Public health; Detroit Ubran Research Center

Publication date: 14-03-03

Country: The US

Language: English

Length: 1:20:53

Number of views: 138

Link: https://www.youtube.com/watch?v=ElybIcpRs1c

4. Participatory Action Research

Description: This lecture is an overview of Participatory Action Research (PAR), including the definition of research, action research, and participatory research; values, process and research methodology of participatory action research.

Keywords: Participatory Action Research, research methodology

Type: Lecture

Presenter: Abe Oudshoorn

Organization/Institution: University of Western Ontario

Publication date: 13-04-03

Country: Canada

Language: English

Length: 38:17

Number of views: 6415

Link: https://www.youtube.com/watch?v=yrF7cVESMzg

5. Dr. William Oswald introduces Community Based Participatory Action Research (CBPAR)

Description: This video introduces Community Based Participatory Action Research (CBPAR) in theory and practice. A specific example is presented in regards to a study in San Diego County to use CBPAR to understand and change the food policies.

Keywords: Community Based Participatory Action Research (CBPAR)

Type: Lecture

Presenter: William Oswald

Publication date: 13-11-27

Language: English

Length: 7:21

Number of views: 1297

Link: https://www.youtube.com/watch?v=Ehy002Kep0k

6. CSC Community-based Participatory Research: PUBH 700 Module 9 #2

Description: This training material includes an overview of CBPR in the field of health, including its definition and evolvement, core principles and characteristics, values, and challenges.

Keywords: Community-based Participatory Research

Type: Lecture

Presenter: Heather M. Brandt

Organization/Institution: University of South Carolina

Publication date: 14-09-26

Country: The US

Language: English

Length: 53:30

Number of views: 556

Link: https://www.youtube.com/watch?v=Jid_xIeQUh8

7. Kirsten Senturia: Community Based Participatory Research in Implementation Science

Description: The video is about CBPR and its implementation, including what CBPR is, levels of participation, challenges and benefits. A case study "Partnering Across Cultures to Address Domestic Violence" is examined in depth to explain how CBPR could be applied.

Keywords: CBPR

Type: Lecture

Presenter: Kirsten Senturia

Organization/Institution: University of Washington

Publication date: 15-06-30

Country: The US (with immigrant community)

Language: English

Length: 31:19

Number of views: 114

Link: https://www.youtube.com/watch?v=sE316ghoO4Q

8. How action research can help to deliver better services

Description: This storyboard (animated video) aims to explain what action research is and how it can help to improve public services. It presents the example of Cedar (Children experiencing domestic abuse recovery) to explain how action research can be useful and offers some hints and tips for undertaking action research.

Keywords: action research

Type: Cartoon illustration

Presenter: Cathy Sharp

Publication date: 12-07-31

Language: English

Length: 13:04

Link: https://vimeo.com/46674776

9. Participatory action research + complexity

Description: This video is an overview of Participatory action research (PAR) that enables people, groups and organizations to address complex distributed problems. Four steps are identified to conduct PAR, including diagnosing, acting, measuring, and reflecting.

Keywords: Participatory action research

Type: Lecture

Presenter: E. Alana James

Publication date: 08-06-03

Language: English

Length: 8:48

Number of views: 17192

Link: https://www.youtube.com/watch?v=s-SAJPF5xiA

10. "Action Research" with Ashridge Business School's Simon Standish, Gill Coleman & Danny Chesterman

Description: This conversation is about what Action Research (AR) and its process is, how it is different from other personal/organizational development processes, and the practical application of AR.

Keywords: Action Research

Type: Interview

Presenter: Simon Standish, Danny Chesterman, Gill Coleman

Organization/Institution: Ashridge Business School

Publication date: 14-10-22

Country: The UK

Language: English

Length: 13:37

Number of views: 320

Link: https://www.youtube.com/watch?v=96aM9OgSauM

11. Building Health Environments in Diverse Settings: The Value of Community-Engaged Research

Description: In this video, Dr. Meredith Minkler, from University of California, gave an overview of Community-Engaged Research, including goals, added values, and her own experience with Community-Engaged Research. Issues such as cultural sensitivity, disseminations of research findings, policy changes, partnership, challenges and obstacles in CBPR were brought about in the lecture. Various methods for CBPR were included in the case studies such as surveys, GIS mapping, power mapping, etc.

Keywords: Community-Engaged Research

Type: Lecture

Presenter: Meredith Minkler

Organization/Institution: University of California- Berkeley.

Publication date: 13-11-11

Country: The US (examples in Chinese, Indian communities, etc.)

Language: English

Length: 1:22:26

Number of views: 302

Link: https://www.youtube.com/watch?v=z4A725fav8Q

12. UNM Community Engaged Research Faculty Training Section 1

Description: This video explains what Community Engaged Research (CenR) is, what community is, and the historical, social and cultural context of CenR.

Keywords: Community Engaged Research (CenR)

Type: Documentary

Organization/Institution: University of New Mexico Health Sciences Center

Publication date: 13-08-02

Language: English

Length: 14:24

Number of views: 192

Link: https://www.youtube.com/watch?v=uEDSHVcD5Jg

13. VIDEO - What is Applied Research?

Description: This video discusses what applied research is, and steps and methods for applied research with a few simple examples.

Keywords: applied research

Type: Lecture

Presenter: Megan Birchfield, Emily Cameron, Lianne Charlez, Melanie Lavergne

Publication date: 13-10-04

Language: English

Length: 3:43

Number of views: 2479

Link: https://www.youtube.com/watch?v=i5BrTYNbYno

14. Introduction to Youth Participatory Action Research YPAR

Description: This video focuses specifically on Youth Participatory Action Research (YPAR), including the history, core features, methodology, best practices and challenges for YPAR.

Keywords: Youth Participatory Action Research (YPAR)

Type: Webinar

Presenter: Heather Mosher, Zulynette Morales, Jean Schensul, Dan Jordan

Publication date: 15-02-05

Language: English

Length: 1:18:39

Number of views: 205

Link: https://www.youtube.com/watch?v=ZLnWOjdxjY8

15. Current Issues in Community Based Research

Description: As part of its initiatives under the SSHRC funded study on 'Training the Next Generation of Community Based Researchers', the UNESCO Chair organized a webinar, which focused on 'Current Issues in Community Based Research'. This webinar includes 3 presentations including: topics on major findings from the first global study on training in CBR, community based research for building assets and agency for citizen-led change, and building CBR capacity in a regional African University.

Keywords: Community Based Research

Type: Webinar

Presenter: Budd Hall, Rajesh Tandon, Alison Mathie, George Openjuru

Organization/Institution: UNESCO Chair

Publication date: 16-01-14

Language: English

Length: 1:02:11

Link: http://unescochair-cbrsr.org/webinar-on-current-issues-in-community-based-research-organized-by-the-unesco-chair-on-january-14-2016/

ETHICS & VALUES

1. Tamara Landry on the Challenges and rewards of community based research

Description: This video includes a personal reflection of challenges in community based research by Tamara Landry. Ethics issues are brought about in the presentation including disclosure issues, youth advisory committee issues and building trusting relationship, etc.

Keywords: community based research, challenges, ethics

Type: Lecture

Presenter: Tamara Landry

Organization/Institution: The University of Western Ontario

Publication date: 11-04-02

Country: Canada

Language: English

Length: 6:45

Number of views: 688

Link: https://www.youtube.com/watch?v=TarWbWYSqA8&index=123&list=PLbASS1CibGoEG6f4MhDIcn8B-BVnyFv1a

2. Ethics are central to community-based mapping processes

Description: This speaker explains the value of ethics in the context of participatory mapping processes.

Keywords: community-based mapping, ethics

Type: Interview

Presenter: Nigel Crawhall

Organization/Institution: Indigenous Peoples of Africa Co-ordinating Committee   (IPACC)

Publication date: 10-02-25

Country: South Africa

Language: English

Length: 1:57

Number of views: 441

Link: https://www.youtube.com/watch?v=q-_JxrF49gM

3. International Research Ethics

Description: In this video, Dr. Nancy Kass outlines the expectations and norms for research ethics generally and how they play out in some examples from low and middle-income countries. Data is presented from two studies: one with US based researchers who conducted research in low and middle-income countries about the ethics issues they had faced, and one with participants from clinical trials. The presentation then moves to describing a large Fogarty-funded and Africa-based training program in research ethics, including what it has tried to accomplish, what the successes and challenges have been, and strategies to evaluate such training programs.

Keywords: research ethics

Type: Lecture

Presenter: Nancy Kass

Organization/Institution: Johns Hopkins Bloomberg School of Public Health

Publication date: 14-03-03

Country: The US (with examples in developing countries)

Language: English

Length: 1:22:20

Number of views: 876

Link: https://www.youtube.com/watch?v=ZMtmK_3XmDU

4. Research Ethics - March 15, 2010

Description: The video includes what research ethics are in the context of university/community-based research, and the purpose and process of research ethics in community and university.

Keywords: Research ethics

Type: Webinar

Presenter: Barbara Clow

Organization/Institution: Atlantic Centre of Excellence for Women's Health

Publication date: 12-07-23

Country: Canada

Language: English

Length: 44:54

Number of views: 1610

Link: https://www.youtube.com/watch?v=GNzQo1k_PHE

5. Ethics in Action Research

Description: Considering the privacy of individuals and respecting their ideas is crucial when conducting action research. In this video, the presenter explains bias in action research, and how to reduce bias. A few ethical considerations in action research are discussed in the video (e.g. signing consent form).

Keywords: Action research, ethics

Type: Webinar

Presenter: Nellie Deutsch

Organization/Institution: Integrating Technology

Publication date: 15-06-14

Country: Canada

Language: English

Length: 55:49

Number of views: 115

Link: https://www.youtube.com/watch?v=AItPUXlLzpg

6. Participatory Action Research with Vulnerable Children and Youth

Description: This webinar presentation is about ethics of conducting participatory action research with children and youth living and working on the streets of Bogota, Columbia. Several specific studies and the processes to conduct these studies are explained in the presentation. Issues such as sensitivity to conduct research with vulnerable groups, and reciprocity in research are discussed. Methodologies such as observation, interviews, focus groups were included in the project

Keywords: Participatory Action Research, vulnerable group

Type: Webinar

Presenter: Amy Ritterbusch

Organization/Institution: CPC Learning Network's Program Learning Group

Publication date: 14-03-04

Country: Colombia

Language: English

Length: 1:01:18

Number of views: 239

Link: https://www.youtube.com/watch?v=NIrCq0ArgBI

7. Supporting Community Ownership over Projects Using Community Based Participatory Research

Description: This video focuses on community ownership of projects through Community Based Participatory Research (CBPR), and it includes an overview of challenges and proven strategies for building a sense of community ownership of health programs and services.

Keywords: CBPR, ownership

Type: Webinar

Presenter: Jami Bartgis

Publication date: 14-11-04

Country: The US

Language: English

Length: 56:24

Number of views: 172

Link: https://www.youtube.com/watch?v=SRkQUJC_rLE

8. Ethics and Community Based Research

Description: This video is about the Roundtable discussion at the Living Knowledge Conference held at Queen's University in August 2009 examining ethics in community based research. The key conclusion is that ethical dilemmas occur throughout the research design, implementation and interpretation process of in community based research.

Keywords: Ethics, community based research

Type: Documentary

Publication date: 10-02-03

Country: Canada

Language: English

Length: 5:34

Number of views: 962

Link: https://www.youtube.com/watch?v=oKvqEbIvex0

9. Webinar: CFICE Ethics in Community / University research

Description: This webinar discusses ethics issues involved in studies regarding community food security, including specific ethical challenges, procedures and tools, and unique challenges in the community context, etc.

Keywords: ethics, community research

Type: Webinar

Presenter: Irena Knezevic

Organization/Institution: Mount Saint Vincent University (MSVU)

Publication date: 14-05-01

Country: Canada

Language: English

Length: 1:19:57

Number of views: 9

Link: https://www.youtube.com/watch?v=XmCeNzdNeLM

MULTIPLE MODES OF ENQUIRY

1. Community Mapping: A Tool for Community-Based Assessment and Skill Building

Description: This is a training material about community mapping, including what community mapping is; community mapping as an assessment and instructional tool; goals/objectives, steps, sessions (e.g. preparing students, field trip, presentation, reflection/debriefing) of community mapping; and how to adapt community mapping to meet the needs of students/clients.

Keywords: Community mapping, community assessment

Type: Lecture

Presenter: Lindsey Anderson

Organization/Institution: The George Washington University

Publication date: 12-08-04

Country: The US

Language: English

Length: 34:01

Number of views: 748

Link: https://www.youtube.com/watch?v=zQo9OMlQhpI

2. Asset Mapping vs. Needs Assessment

Description: This is a training material in regards to identifying and implementing the community-based strategies required to achieve greater impacts. The video includes: the differences between Asset Mapping and Needs Assessments; the principles of Asset Based Community Development; how to utilize Asset Mapping and other community engagement tools to achieve greater impacts and results; and how to use technology as a tool to increase community engagement and results.

Keywords: Asset mapping, needs assessments

Type: Webinar

Presenter: Dan Duncan

Organization/Institution: Community TechKnowledge, Inc.

Publication date: 12-03-30

Country: The US

Language: English

Length: 58:16

Number of views: 7822

Link: https://www.youtube.com/watch?v=wYw14uCGbkw

3. Visual Research Methods: Creative Practice as Mutual Recovery. Professor Susan Hogan

Description: The video documents a project that used innovate visual and performance based research methods and reflects on these as part

of the research process. This project intends to use arts to elucidate research outcomes and the video outlines the proposed methods and briefly theorises them. This video is intended to be of benefit to social science practitioners who are thinking of employing visual methods or collaborating with artists as part of social science research projects.

Keywords: visual and performance based research methods, research method

Type: Documentary

Presenter: Susan Hogan

Organization/Institution: University of Derby

Publication date: 13-08-05

Country: The UK

Language: English

Length: 22:15

Number of views: 1858

Link: https://www.youtube.com/watch?v=WjPN2akVp-A

4. Mapping the Road to Change: Action Learning for Gender Justice in Western Uganda

Description: This video is about rural entrepreneurs from two grassroots organisations in Western Uganda being trained in the participatory Gender Action Learning System (GALS) methodology. GALS comprises a series of tools that enable household members to negotiate their needs and interests and find innovative, gender-equitable solutions in livelihoods planning and value chain development. The use of simple graphics and symbols enables members to clearly visualize and understand their situation and collect useful information. The documentary shows the impact of GALS on their lives and their communities.

Keywords: Action Learning, GALS tool

Type: Documentary

Publication date: 12-01-19

Country: Uganda

Language: English and Native languages (partially with English subtitles)

Length: 27:41

Number of views: 443

Link: https://www.youtube.com/watch?v=glVllrnAUcE

5. Teach With Stories

Description: The video is about the Teach-With-Stories (TWS) Method, which is the art of facilitating to help promote health, equity, and transformational change. It combines the oral tradition of storytelling with an empowerment-based facilitation process. With the TWS Method, one can bring people together to create a culture for learning, support and healing. Tailored stories and experiential learning activities allow people to work with individuals and their families on all levels - social, emotional, mental, spiritual, as well as physical. The TWS method can be adapted for many communities and topics.

Keywords: Teach-With-Stories (TWS) Method

Type: Documentary

Presenter: Camara Phyllis Jones & Florence M. Siman

Organization/Institution: Teach-with Story programs

Publication date: 15-04-07

Country: The US (Latino community)

Language: English & Spanish

Length: 4:17

Number of views: 45

Link: https://www.youtube.com/watch?v=_kMdBFtLLiU

6. Action Research Methodology Section

Description: The video includes the concept of action research and its methodology, with the discussion of interpretivism vs. positivist, action research cycle, etc.

Keywords: action research, methodology

Type: Lecture

Publication date: 12-01-27

Language: English

POWER & PARTNERSHIPS

1. Working Together: Collaboration of 8 Community-Based Arts-Informed Research Projects on Homelessness

Description: The video is about 8 community-based arts-informed research projects on homelessness. The research team included people

with experiences of homelessness, community-agency staff, artistic and academics. The video documents the experience, comments from people involved in the research, including what had worked in these projects and what the challenges were. It advocated for policies and programs to include and be accountable to people with experience of homelessness.

Keywords: Community-Based Arts-Informed Research, homelessness

Type: Documentary

8. Participatory Research to foster Innovation in Agriculture - A capacity building event (Aug 2014)

Description: This video provides one example of participatory agricultural research, which has emerged as an internationally acknowledged method to integrate farmers experience and skills into the innovation process. A symposium in Zurich with experts and project partners of Switzerland's Research Institute of Organic Agriculture (FiBL) has emphasized that the approach should include all stakeholders and must always keep the markets in mind in order to produce effective and sustainable results. The close collaboration between farmers and researchers is one of the key elements accompanying the Farming Systems Comparison in the Tropics (SysCom), implemented by FiBL in Bolivia, India and Kenya and the Green Cotton Participatory Breeding Project in India.

Keywords: Participatory Research, sustainable agriculture

Type: Documentary

Presenter: Gurbir Bhullar

Link: https://www.youtube.com/watch?v=fCIWSnqVBqA

10. CSUF 2013 Outstanding Professor Lecture by Dr. Sora Park Tanjasiri

Description: This video is a lecture on the facilitation of concerted community efforts for the improvement of population health. Community-based participatory research (CBPR) offers a conceptual and logistical approach to improve the responsiveness of research institutions to address root causes of enduring health disparity problems. Dr. Sora Park Tanjasiri discusses the application of CBPR to address the continuum of cancer control research needs, and share illustrations from work with Asian American and Pacific Islander communities throughout the region.

Keywords: CBPR, public health

Type: Lecture

Presenter: Sora Park Tanjasiri

Organization/Institution: California State University

Publication date: 13-11-22

Country: Pacific Islands

Language: English

Length: 1:07:31

Number of views: 752

Link: https://www.youtube.com/watch?v=l3aaK4EuFcg

11. Training program on community engagement on small-scale irrigation interventions (IWMI)

Description: In 2009-2012, International Water Management Institute (IWMI) conducted a study on the performance of the agricultural water management interventions across five countries in Africa and Asia: Burkina Faso, Ethiopia, Ghana, Nepal and Sri Lanka. Weak community engagement was found to severely hinder the effectiveness of interventions in all countries. An original training curriculum was developed for local project managers, social mobilisers, irrigation engineers and government extension officers to improve community engagement in the particular case of agricultural water management interventions. This video presents the main innovations of this curriculum, illustrated by the pilot course that took place in Nepal in October 2012. Three aspects of the training program are highlighted: learning by doing, appreciative approach, and larger role in decision-making.

Keywords: Training, community engagement, agricultural water management

12. Community based sustainable use of natural resources in Vietnam

Description: This video is about Community based conservation process at the Tram Chim National Park, which is one of the preservation areas in Vietnam. The park has been working with poor groups that demonstrate an interest in and commitment to resource conservation. The groups developed resource management plans that granted the local people permission to enter the national park and gather

sanctioned resources for their livelihoods. Since the inception of this system, park officials found that their conservation and regulation work was much easier, and local people had greater incomes to provide more stability for their family. Villagers recognized the value of conserving resources today to ensure that the abundance of resources will remain for future generations.

Keywords: community-based research, natural resources management

Type: Documentary

Organization/Institution: Institute of Tropical Biology in collaboration with Tram Chim National Park

BALANCING CLASSROOM & FIELD

1. CSC Community-based Research-India

Description: This video is an example of balancing classroom and field from the students' perspective of what they learned outside their classroom. It is a documentary of four University of Notre Dame undergraduate students conducting research in India. The students wrote reports on the education research they conducted through an academic partnership with 74-year-old Sister Cyril, the principal of Loreto Day School Sealdah. They worked, researched and served in the community and at school, which invites children from poorer households, including those in the slums, to learn free-of-charge alongside wealthier fee-paying students. The Loreto students served as teachers to these children, who now study and live at the school.

Keywords: Community-based Research, experiential learning

Type: Documentary
